**NO BOMBS, MISSILES,

**BUT YOU'LL STILL NEED
POWERFUL ARMS.**

And legs. And even wits. Because in Prince of Persia® from Konami®, only a fast mind and fit muscles can conquer all 20 Super NES™ stages, including 8 you've never seen anywhere before.

Once sealed inside the desert palace maze you'll hardly have time to appreciate the awesome high resolution graphics, incredibly cool life-like player animation, and mood setting Arabian melodies. Because when you're not hanging by your fingertips over spiked pits or leaping through razor sharp guillotines, you'll be saber dueling with skeletal remains and vicious turbaned terrors.

The sands of time are against you, so you must be constantly on the move, making split second decisions with no margin for error. Is that vessel filled with poison or life giving nectar? Will that floor cave in or open a secret passage? Only the sultan of sin Jaffar knows for sure.

And he'll even use magic to keep you from rescuing the princess and becoming the Prince of Persia.

TECHNOLOGY...AT WHAT PRICE?

When is a game system no longer a toy? After all, we are really in the toy business, and it just happens to be that at the present time, video games make up the major percentage of that industry. Most people relate toys with price. Try to sell an item above a certain price point and the 'toy' just sits on the shelves. In video games, that upper price is about \$200 for systems and \$80 for cartridges and accessories. With our current 16-Bit game systems and softs well under those thresholds, it isn't too much of a surprise that they are selling like hotcakes. For those systems over \$200, like the Neo-Geo, well, they aren't selling quite as fast. This is one reason why Nintendo hopes to sell their 32-Bit CD-ROM peripheral to the consumer for under \$200. And, that is also why Sega is in the process of consolidating the circuitry to reduce the manufacturing costs (and the ultimate consumer price) of their Sega CD. There are exceptions that work for a while. The Sega CD and Turbo Duo retail for more than \$200, but they include 'freebies' with their system. These extra games packed with the CD-ROMS give the purchaser a 'perceived value' that is under the \$200 limit. And these systems are selling quite well.

Now, there is a new system coming to the market. Last month I had the privilege of getting an advanced look at the super-secret, CD-ROM only, game machine. Called the 3-D-O, it is perhaps the most technologically advanced game system ever created. That is, if you can even call it a game system. It goes way beyond existing and proposed video game technology, and it is an example of the type of system we will be playing games on in the future. The best news is that it is projected to be in the stores as early as this fall! There is only one catch. Like any new state-of-the-art technology, it will not be cheap. In my interview with Trip Hawkins, president and CEO of 3-D-O, he stated that this system will retail for about \$700! He also mentioned that the cost could drop to about \$500 after the system has been on the market for a while, but looking at it from the 'average' player's point of view, that still is a lot of money, with or without pack-in freebies. So, according to the \$200 toy rule, the 3-D-O doesn't have a chance. But then, is it a toy?

The 3-D-O is designed to have expansion in mind. So were the game systems but because of their bare-bones CPU and memory, the Super NES and Genesis would choke and bog down if real broadcast-quality full motion video was fed through their meager CPU. Not so with the 3-D-O. Also, with Time Warner (as in 7 million cable TV subscribers) behind this system, Trip hinted that this box does have additional uses beyond just playing games. The 3-D-O, with an optional module and tied into the new fiber optic, thousand channel cable TV network, just could be sitting on top of your TV in the not too distant future!

A toy, the 3-D-O certainly isn't. What instead we might be seeing later this year when it comes out, is the future of video games.

Head-butts,

*An interview with Scott Steinberg,
product manager of Streets of Rage 2™ for Sega™ Genesis.™*

kidney punches,

How is Streets of Rage 2 different from the first one?

The graphics are awesome. At 16 megs it's our biggest game. Overall there's a lot more of everything—more moves, more intricate maneuvers, more characters. And the characters are a lot bigger in size. So the action is more impactful.

uppercuts, knee-slams,

What are some of the new moves?

Axel™ has new punch combinations that do some serious damage. Blaze™ can do backflips to attack enemies in front and behind her. And there are two new players, Max™ and Skate.™ Max is an ex-wrestler with a ruthless body-slam, and Skate knocks his opponents out with flying jump kicks. He can also skate behind his opponents, jump on their shoulders and ambush them.

eye-gouges

Are there new enemies?

Lots of new enemies—a gang of motorcycle thugs, a guy with a jet-powered pack on his back, knife-fighters, ax murderers, ex-cons, and a bunch of new martial arts experts, so there are a lot of new challenges. And the player control is different also.

and groin kicks.

How is the control different?

We've tuned the control to be much more responsive, so that the action will be a lot faster and more spontaneous. You can crack a jaw or flatten an opponent in a split second. The players are basically as fast as your reflexes will let them be. The fighting is so realistic, you actually feel tired after playing it—it's the next best thing to kicking some real you-know-what.

(Just another typical day at the Sega office.)

SUPER NES SF2 BOSS CODES!!

OK, you guys have proven yourself over and over again that you are the one source that we can go to for the straight Street Fighter 2 scoop. You have given us codes that even Capcom doesn't know about, and you have kept us informed on the latest SF2 news. But, when you say that there aren't any Boss codes, I just don't believe you. Lots of players at my school say that they have accidentally stumbled into the secret Boss code. None have been able to duplicate it, though. Why is there so much secrecy about this trick?

Ted Knight
Nashville, TN

My friends say that the Boss code in SF2 is related to the blood types of all the characters and involves a lot of clockwise and counterclockwise movements on the stick. I have tried all of the possibilities but none of them work. What is the secret?

Josh Kell
Philadelphia, PA

I have heard that a Japanese magazine printed the Boss code for SF2 a couple of months ago. A kid at school has a Japanese copy of the game and says that it works, but when I asked him for it, he wouldn't give it to me as he said that Capcom changed the code for the U.S. version. Can you tell me what the new code is?

Randy Tortinelli
Stockton, CA

You can finally play as the Bosses in the Super NES version of Street Fighter 2!

(Ed. Rumors continue to persist about the proverbial SF2 Boss code trick.

As we stated in the past, there aren't any methods within the game itself that let you play as the Bosses. While many players have heard about a trick, nobody has been able to prove it, as the letters above indicate.

We have been investigating the issue quite diligently though, and we have discovered an indirect way that lets you play as any one of the four bosses.

You have to have the Super Nintendo Game Genie though. Here is how you do it:

Put in the two codes 10A4-0767 plus F0AE-6D04. Go to the VS. Mode. Have both controllers plugged in and choose Ryu and Ken. Then press Start on each controller. This will give you the normal stage selection screen. Player one should select the area of the Boss that you want to play as. You will then go to that screen. The second player will be able to play as the Boss of that stage!

Imagine being able to do Bison's flaming torpedo! Awesome!

While this code isn't perfect and it glitches once in a while, it works - for all the bosses! Special thanks goes out to T. Melby for providing us with this super code. Stay tuned for an update next month!

RUMORS, RUMORS, RUMORS!

I read in another magazine that Sega's Phantasy Star 4 is coming to the Sega CD. Your Behind the Screens on PS4 last issue really cleared the air about the cartridge version. Any word on the CD game?

Dominic Schwebke
Toronto, Ontario

Phantasy Star 4 is scheduled to come out in Japan at the end of this year.

(Ed. Don't hold your breath for the CD Dominic. Last October the cart was only 15% done and it isn't scheduled to come out in Japan until the end of this year. Then add on a few months for the English version and you are looking at 1994! With the 32-Bit Giga Drive and CD-ROM also scheduled for 1994, PS5 CD could very well be one of the first 32-Bit discs.)

SEGA, WE NEED MORE RPGs!

Tis' the season for sequels!! We now have Sonic 2, Road Rash 2 and Streets of Rage 2. The list goes on and on. What I really need to know is what about Shining in the Darkness 2? You previously ran pictures of a Japanese game (Shining Force) that looked like it would be a sequel, but you didn't say whether it was going to be coming out in the U.S. or not. I was hooked on the first game for two months and this is one cart that really deserves a follow-up.

Dave Zaranek
Clinton Twp., MI

Land Stalker is the newest cart in Sega's Shining in the Darkness RPG series.

(Ed. Sega has really been lagging behind in the RPG area. They used to give us at least one good game every year but things have dried up. They are promising to have something at CES so watch for the latest info in the March issue.

In Japan, Shining Force was the second in the series of RPGs and the third and newest game is called Land Stalker. If Sega was smart they would bring this version out over here as it is hot!

PUT THE PEDAL TO THE METAL!

I can't believe how big your magazine is becoming. I live in a town of about five thousand and your December issue was bigger than the Yellow Pages and White Pages combined for our town and the 16 surrounding communities!

I just ordered the Sega CD and the first batch of games. What I need to know is if and when Sega plans to be bringing out any of their great racing games. Now that they have decent hardware scaling, wouldn't it be easy to do Power Drift?

LETTER OF THE MONTH!

Not bad, Dan! We've been wondering why Sushi has been eating tea and crumpets lately. It all began a while back, though. He started yelling Diel Diel when he was playing Martin at SF2. Little did we know that he was just lonely for his Princess Dil' And

she thought he was spending all his time in the Navy! Any-way, you can bet that the British government is going to be furious about your clandestine photos, and they have people who take care of their dirty work. Better watch out, as if you see Roger Moore walking next to you, remember he has a license to kill!

"Hey EGM Guys,
I am proud to announce that I have found the mysterious "Sushi-X's" true ID. While SF2 players were looking for a Japanese player, I discovered that the famed Sushi-X was actually Prince Charles of Wales! (So that is why he has been late to the palace lately!) Enclosed on my envelope is a photo of Sushi when he was in the bathroom at my local mall getting ready to play against our local SF2 champion Yoshin Kiutura. A great chase that I had taken this photo, Sushi, or as you say the prince, attempted to take the film and I let a great chase until I lost him behind a Mortal Kombat machine. Running over to the 1 hour photo stand I had this pic developed and quickly wrote this letter and sent it to you guys. Believe it or not, Prince Charles will not be too annoyed at me, but I would do anything for a tet of bit damage."

WIN AN OFFICIAL EGM T-SHIRT!

If you want to be the laughing stock at your high school and make a fool of yourself in front of a million other fellow gamers, just send in a letter saying something that completely off the wall. Note: Don't copy anything out of the other mags as they won't like it. For this we'll publish your letter and send you a limited edition EGM T-Shirt as our gift!

GAME, GAME, WHO HAS THE GAME?

Things used to be a lot simpler back in the good old days. In the early 80's there also were a lot of game machines but, if there was a great title out you could get it for all the systems and it was done by the same company. Now, if there is a hot game (SF2) you have to have that system or don't play the game! Why can't companies 'cross over' like they used to do?

John Radkins
Austin, TX

(Ed. We couldn't agree more, John! We are beginning to see more cross-over. Take Out of This World for example. Interplay has the Super NES version and Virgin is doing the Genesis cart!)

MORTAL KOMBAT FOR SUPER NES?

Since you guys are the first, last and only word on video games, I have a question I hope you can help me with. I am a huge fan of Mortal Kombat and I was wondering if there will be a home version of the game on any one of the main 16-Bit machines (hopefully the Super Nintendo)? The game does possess scenes of graphic violence, but they only enhance the realism of the game play. I know Nintendo of American delayed the release of Street Fighter 2 because of the few scenes that were somewhat bloody, but what will they do to Mortal Kombat once they get their hands on the gore in that cart? I wonder if it even has a chance of getting to a home system.

Gary Jimenez
Naches, WA

Acclaim has obtained the rights from Midway to do the arcade smash hit - Mortal Kombat for the home video game systems!

(Ed. Great news, Gary! Acclaim has announced that they will be doing the mega-hot quarter muncher Mortal Kombat for the 16-Bit systems. Very little information is presently available, and as to how they expect to get Nintendo to approve all of the blood and violence is anybody's guess. We should have more information next issue after we come back from the Winter Consumer Electronics Show.)

TWO PLAYER FINAL FIGHT CD?

I heard rumors that Final Fight for the Sega CD would be a two player simultaneous game. The pictures that you ran a few months ago showed only one player on the screen. Has Capcom changed the game?

Scott Greenwald
Cincinnati, OH

The newest version of Final Fight for the Sega CD lets you play as any of the three characters and is a two player simultaneous game!

(Ed. As you can see from the pix, the programmers went back in and made the Mega CD version a two player cooperative game. Super NES fans should also note that Capcom has just recently announced that Final Fight 2 will also be a two player cooperative game!)

Believe it or not,

*An interview with
Scott Bayless, CD developer at Sega.*

the brains behind Sega CD™

What are the technical advantages of Sega CD?

Basically it offers massive storage, which means we can now use real video action. A 16-bit cartridge could only hold a few seconds of motion video. But the CD holds over 500 megabytes, so you can now play for hours, interacting with real video.

don't wear pocket-

So the games will be more realistic?

Yeah, way more realistic. We have a second processor and a special graphics chip, so our zooming, scaling, and rotation is incredible. And we use a lot of real-life video you can actually interact with. Characters will speak to you and harass you

protectors or glasses

What do you mean "interact"?

For example, there's a game called "Night Trap"** that uses all real-life footage with real actors, and you control the action. You have to rescue girls from a house full of ghouls by operating a surveillance system, and trapping them in different rooms. It's like controlling the plot and the action of a real movie, from start to finish. It's pretty wild.

held together with tape.

Do you have a personal favorite CD game?

Yeah I like the INXS music video game, where you can re-edit their videos with different special effects and graphics. The sound on all the CD's is pretty amazing, it's just as good as an audio component. Plus we're using a lot of original music. When you hook it up to your sound system, it's like playing in a whole new realm. It's really amazing. You forget where you are.

This game does a brilliant job of combining game techniques, visual presentation and storyline. I am absolutely amazed by the quality of the title. The game play can't really be described as action, but the unfolding plot and manner of interface creates a cerebral experience that just can't be found in any other game!

I love the SNES version and seeing this game come out for Genesis is a sight for sore eyes. The graphics are totally awesome and the animation is smoother and faster. Original game play and interesting theme blended with cool cinematics and accompanying movie audio. A great cart for Genesis that you can't pass up.

Truly amazing! Other than Sonic 2 OOTW is easily the best thing to come to the Genesis all year. Graphics are exceptional, the game play is challenging and you really have to think to get through this game. A perfect blend of action and adventure. Real smooth animation! Don't miss this cart!

Out of This World is a hot game made for two of the hottest systems. On the Genesis, it shines with animation surpassing Prince of Persia. It really makes you feel like you are playing a cartoon. It will take a strong follow up to improve on this kind of title. The action can run a little slow, but the graphics are primo!

Super NES**THQ**

Wayne's World

Action**March****N/A****8 Meg**

From small screen to big screen... to video game screen! Wayne and Garth are partying again - this time on the Super NES!

Our favorite cable dudes are unexpectedly pulled into the video game Zantar the Gelatious Cubel A mysterious purple blob has kidnapped Garth and you must help Wayne save him by twanging your guitar to kill the enemies. Great graphics and sound make this cart...excellent!

While the set-up is pure Wayne's World, the execution of the game is your standard run-and-shoot series. The look and feel of the cart's graphics is good, but the lack of real technique leaves me sort of flat. There's not a lot to interact with and most of the dangers are simply obstacles and not animated enemies.

I have to give THQ one thing, this game does capture the flavor of the movie. However, I like to play a game for its game play rather than its movie tie in. The game is OK and probably best suited for the younger player. I didn't find the real challenge other than jumping around. Average, but not great.

There are very few exceptional features in this cart. The game is very amusing and features digitized scenes from the movie including extreme close-ups done with Mode 7. The game play needs work, and there is not much of a game here at all. The graphics and digitized sounds are also high points. Not worthy! Not worthy!

This "game" is certainly in need of help. I didn't find it very enjoyable as there wasn't a game to challenge me. The cinematics at the beginning were very cute and built up my hopes but the game left me flat. The sounds aren't worth talking about, the plot needs a lot, and the graphics are crisp and clean. Not my type of game.

Super NES**Hi Tech**

Hunt for Red October

Action**Now****5 Levels****8 Meg**

Take command of the most high-tech nuclear submarine, the Red October. As Captain Ramius, your ultimate goal is to defect to the United States, where you will conduct missions for the Americans. Battle your way through five hazardous levels with your arsenal of torpedoes, missiles and floating mines. The game's "head on" perspective gives a unique 3-D effect to this intriguing underwater adventure.

This game has absolutely nothing to do with the movie, and as far as the action cart it portrays itself as it ends up falling short. The pace of the action in the side scrolling areas is too slow, but the intensity does pick up in the first person sections (the best implementation). There's not much, but it does have an identity.

The SuperScope needs help. At least this game is a step in the right direction. The idea of mixing the action is good, but it has to deliver. This isn't OK but not exceptional. This is the Super NES and I think games should be made to fit the system. I kept looking for the action to really heat up but it was only average.

The side scrolling part of this cart is weak. There are only a few different enemies and the game play is sluggish and non-responsive. The first person part is even weaker. The simulated scaling helicopters and missiles keep you waiting for more. Nothing exciting in terms of graphics, sounds, or game play.

Somehow, this is and isn't what I expected Hunt for Red October to be like on the SNES. The controls are extremely rigid, not allowing for evasive maneuvers of any kind. The different weapons are cool, but hardly effective against your enemies. Right from the start your mission is difficult, but it doesn't change much at all.

Super NES**Sunsoft**

Firepower 2000

Shooter**Now**

Fighter planes are mysteriously disappearing off the coast of Bermuda... and you must find them!

It appears an evil race of underground warriors is plotting world domination, and they've begun their quest by taking control of the world's military capabilities. Pilot an attack chopper or an assault jeep and blast your way through the skies in this high-flying adventure to save the world from destruction!

If you look at this game from two sides, as jeep battle and heli battle, you get two different scores. The jeep action is awkward and difficult to control - but the overhead helicopter mode dishes up some of the best vertical scroll action the Super NES has ever seen. Not a lot of Mode 7 flash, just solid, solid game play

Now this is a spectacular shooter. Only Space Megaforce can top this hot action cart. Great power-ups, intense action, and a very difficult mission make this a shooters paradise. Lots of frags to blow up and not for the inexperienced player. Definitely the Super NES game to get this month

I really liked this cart. This is the first overhead shooter for the SNES that plays as fast and aggressive as the best the arcade has to offer. Incredible graphics and animation and a slew of power-ups are sure to please most shooting fans. This is one tough game and only the elite will be able to survive to the end.

Quite frankly, I was torn between hating and loving this title. Set-up is a BIG no-no in video games at the 16-bit level, and hardly acceptable. Still, the action was great, and it handled quite well. It needs more variety, but so does almost every other shooter out there. I feel it is above average, but not spectacular.

Super NES**Data East****Dragon's Lair****Action****February****24 Levels****4 Meg**

Put on your armor and get ready for a thrilling medieval quest from Data East. Venture into the castle of the evil wizard Mordroc. You must help Dirk the Daring rescue the beautiful Princess Daphne from the hideous beasts guarding her in the dark and foreboding dungeons. Hidden traps, lizards, and shadow knights will try to stop you along the way. Twenty-four enchanted levels await you if you dare ...

This game has some great graphics, fluid animation and real challenge, but I dislike the controls. They have a sluggish response that prevents any real quick action to develop. What is here, however, is really pretty fun. Although intense action freaks might be disappointed, I liked the scope of this adventure.

Don't expect to blow through this game in one sitting. While it is an extremely difficult game, it is more frustrating until you master the way the game controls. The graphics are top notch and the sound is quite respectable though. Learn the controls and anticipate the enemy and you'll do OK in this game. Not bad!

The graphics and animation are top notch, but the main problem with the cart is the sloppy game play. There is very little control over your character and split second reactions are impossible. I think they should of made it more like the arcade version, instead we get a side scroller that does get frustrating.

Although the game isn't at all like the old arcade coin-op, the side scrolling action is about average as games go. The graphics are colorful but the game just doesn't have the control that is needed to keep me interested. It's not because I make a mistake, it's having to anticipate ahead to even out bad controls.

Genesis**Sega****Chakan****Action****Now****8 Levels****8 Meg**

A game where you want your character to die?! After defeating Death in a duel, the Grim Reaper granted priest-warrior Chakan his wish: eternal life. But now Chakan must wander the Earth until all evil is destroyed. Only then can he rest eternally. You have a variety of weapons and spells at your disposal, along with an unlimited number of lives. Eight long and treacherous levels await you if you're up to it!

Chakan has an eerie mood and unique look that wasn't particularly awe-inspiring, but nevertheless did add to the mood of the play. The action does require that a certain sense of technique develop in how you interact with the enemy environment that must be overcome, but it wasn't anything that I really got into.

Chakan is an exceptionally well playing game. It is a bit on the hard side for the average player as successful game play will require either a lot of trial or error or good technique. The large amount of spells is a plus and knowing when to use them is part of the game if you are a good player, make this your game.

Another good title from Sega. Things could be looking up. Chakan is jam-packed with interesting game play and a ton of technique. The graphics are good, and the music is decent, but this game really shines in game play. Lots of weapons and spells are at your disposal throughout each of 8 challenging levels!

Chakan is an awesome title with a lot to offer in the way of technique. Much more could be added, but that leaves room for sequel anyway. If you enjoy jump-slash-attack action titles, Chakan is perfect. The various weapons and spells give you plenty of options to work around with while you try to meet evil head on!

Genesis**Sega****Ecco the Dolphin****Adventure****Now****27 Levels****8 Meg**

Put on your diving gear and get ready for a deep sea challenge. Sega makes a big splash with their new adventure cart, Ecco. Help our dolphin friend fight off the sea monsters and find his lost pod. Whales, sharks, and octopi will try to stop you along the way. Use your sonar to travel through the 27 levels filled with incredible detail and animation. Join Ecco in his quest - this is one side-scroller you won't forget!

This one barely missed my "Best of the Month" vote! Ecco is the best combination of action and adventure we've seen in a long time. The control and technique is superb and the overall size of the quest that confronts you dolphin is immense. Great action, great story and great play add up to make a stunning game!

This was the 'top secret' game that Sega was raving about but not showing anything. They were right as this game deserves all the praises that we can dish out. Everything from the animation, to the quest, to the sound and graphics is almost perfect. This is new and innovative. The hot Sega game this month!

A game this unique and fun to play is good catch. No pun intended. The backgrounds are absolutely beautiful! Under-sea landscapes are filled with all sorts of animal and plant life. Ecco has a feel all its own. Once you get it hanging on it, your control over the dolphin is incredible. A good blend of challenge and relaxation.

Ecco is amazing to play, or should I say, experience. It really does give you feel of being a dolphin, though the challenges you face and powers the wild world are far from realistic. The quest itself is well laid out, and the challenges just about right. It is a great addition to anyone's library. Remember, dolphins are mammals, too!

Turbo Duo**T.T.I.**

Super Buster Bros.

Action**Now****50 Levels****CD**

T.T.I. bursts onto the Turbo Duo with Super Buster Bros.! Bouncing bubbles are taking over the world and you must help the brothers stop them. It's not easy, because the spheres multiply each time you hit them! Pick up power-ups such as harpoons, guns, shields and food to help you burst the flying bubbles.

Cute graphics and fast-paced game play accompany you as you travel around this wacky world.

Although this game has a certain appealing charm to it, I still feel its goals to be too repetitious and lacking enough action for sustained play. The graphics aren't particularly interesting and the sound effects, while good for the most part, don't add anything to the mix. This game, while executed well, is about ten years too late.

For a while this game is fun. But it really is the same thing over and over again. I normally like these types of games but variety is very important and there just isn't enough of it here. It isn't just this version either, as this game very well. Even the Super NES copy had the same problems.

I didn't like this version of Super Buster Bros. as much as the SNES one. The basic concept in the game play is there, and the graphics are very detailed but look washed out. The music is very cool, (it should be for a CD), but the sound effects need work. Still a fun way to pass the time.

I have yet to see why this title is a CD game, unless TTI is trying to save money on TurboChips. The sounds are not CD quality, if you ask me. The game gets very repetitive, but it still retains a certain "cuteness" about it. It has a special appeal to BreakOut fans, but won't be too exciting for hot action fanatics.

Turbo Duo**T.T.I.**

Samurai Ghost

Action**Now****7 Levels****4 Meg**

Descend to the Dark Side in T.T.I.'s Samurai Ghost for the Duo.

As the honorable warrior Kagekiyo, you must defend the Heiki clan from the evil shogun Yoritomo. Andaaba the witch was kind enough to raise you from the dead so you can take on this merciful quest.

Battle your way through the many zones, avoiding obstacles such as fire bores, flying skullbeasts, and giant blackbirds. Good luck!

Here's a cool idea that becomes disjointed in the course of the execution. While the game does display some visual pizazz, it seems like it's at the expense of the game play. Although there's nothing wrong with this, I believe players have grown to expect more out of their fighting games - and Ghost just doesn't deliver.

If there is one thing to say, this game looks very good. The game play suffers because of the large character size but this works to the benefit of some of the more inexperienced players as the slow speed allows for more reaction time. It is a fun game but just not fast enough for me.

This cart is not the best example of what the Turbo can do. The main character is very large but lacks precise control. You can defend with your sword, but your movements are too slow. The sounds could also be better. This game may have fared well if it were released a few years ago.

I would have thought that TTI would be bringing out all the hot titles from Japan. This one doesn't impress me as a spectacular game. It's a lot of action and this one doesn't deliver. Younger players might like it because it is constantly in slow motion. Needs more variety to keep me interested.

Stop the evil sorceress from taking over the world in the action-packed Somer Assault for the Turbo Duo.

A wicked sorceress has conjured up a horde of demons to help her in her quest for domination. Put an end to her plans by maneuvering a coiled being through the twisting mazes filled with face monsters and wheel walkers. Power-ups can reflect shots or even make you invincible in this zodiac world.

What the Duo needs is some more fresh and innovative ideas. Somer Assault is one of the many elements that Somer Assault succeeds in starting. While the controls take a little getting used to, this is one of the first scrolling action games that wraps up the best of the best and tosses it all into a somewhat new style of play!

Now this is a great idea for a game! Who ever would think that a tokyo would be a hero! More games like this are needed badly. Great power-ups add to your weapon strength and help you get through some of the more difficult mazes. Good job TTI, now lets see a sequel. This is the Turbo game to get this month!

And now for something really different. Maneuver a cool psion/psychon type character through a large maze like world. Cool power-ups add a totally fresh game play make this a Turbo chip to get. There are even bosses at each level. You learn advanced techniques as you play and the game really gets fun.

This game sparkles with originality! It adds a new "twist" to the typical action shooter, and blends a whole new set of techniques to an old theme. It isn't the most intense game out there, but it could well become the next sleeper hit in the Turbo fan's library. It's still good, original fun.

Warning: Repeated exposure to Space Cadet Adventures may cause temporary Space Madness, unsightly mutations and possibly, instantaneous implosion.

Is there intelligent life in the universe? No, you eediot! Only Commander Ren Hoek and Cadet Stimpyle, two space cadets who'll boldly take you where no higher mammal has gone before. The question is, will you know how to get back?

A courageous spacewalk by Commander Hoek is cut short by a control room accident, leaving him

The Terminator

That super-human terror is back once again - this time on the NES. Mindscape brings you The Terminator in all its terror and glory.

Machines have taken over the world far into the future. As Kyle Reese, you must travel back in time and save Sarah Connor from the Terminator. Infiltrate Sky-Net, journey through the Resistance Bunker and defeat the hunter killers. The future of mankind is in your hands.

Although the pace of the action in Terminator should have passed... I thought the game did a good job with most of the supporting elements of play. The actual technique is kind of two-dimensional, but nonetheless offers a variety of challenge and mayhem. While this may not be the best action title, it's nice to see on 8-Bit.

I had hoped that in a big name game would have been as hot as the 16-Bit versions but instead the game came off as somewhat flat and not as exciting as I had expected. A lot of mileage from the movie could have been used to spice up the action but they can't find as such it was hard to keep going in the game.

This cart had potential, but I am really saddened by the fact that even a cool license like the Terminator can become a mediocre game. The sounds and graphics are average with the backgrounds and characters need work. The game play is too slow for me and just couldn't keep me excited. It needed more flair.

Terminator almost had a chance on the NES! Sorry to say, the control is awkward, and the variety of enemies was too lacking in order to keep my attention. Forget the sound, I just zoned off. I like the idea, and if it were better it would be hot. My favorite feature is the gun angle control to blast away Arnold!

Rev up your engines for the latest racing installment from Tradewest, R.C. Pro-Am 2!

Race through the grasslands, city streets and deserts while battling your opponents on 24 new tracks that will test your driving skills to the fullest. Knock your competitors off the road with nitro-boosting power-ups. Upgrade your car with parts and weapons if you want to make it to the finish line before anyone else!

I really enjoyed the original, and although this sequel hasn't improved measurably over the first release, it still shows that some hot product can be created - even for an 8-Bit system! The action is fast and furious. A variety of enhancements can take the game into top gear! A very fun update on an old classic.

Racing games are my favorite and after hearing of a new NES game I wasn't excited. After all how could the 8-Bit deliver the excitement that you get from playing a good Genesis racer? But I was wrong! This is a must have game for anybody who still uses the NES as the game play, graphics and car options are outstanding.

Wow! I am impressed with the quality of this cart. There is nothing in the 8-bit, if someone would take the time to make a quality game. Good graphics and OK sounds are just the beginning. The game play is phenomenal! You have total control over your car, power-up with guns and nitro to keep things interesting.

This is how an NES game should be programmed! The controls are right on the money, and the numerous power up options really add variety to the game play. The graphics are delightfully colorful, and the challenge is consistently better as you race along. R.C. Pro Am II is the best racing game for the NES!

Save Mario from the evil Wario in this enchanting and portable sequel to the original hit.

Make your way through 27 levels with the help of Mario and his newfound ability to fly. Witches, sharks, ghosts and other assorted creatures are lurking throughout the land and will try to stop our plumber friend. Conquer the weird and wacky zones to save the townspeople who are under Wario's wicked spell.

Absolutely the best Gameboy action game I've ever played. This game has maps, cool round separation, a variety of round to round objectives and just the right amount of action. The end product is a graphic, sound and play tour-de-force that shows the Mario motif has yet to lose its style! Most cool indeed!

If there ever was a GB game that was a 10 this is the one. All credit anyway. Nintendo has literally created a new Super NES version and shrunk it into the GB. Game play, options, levels, secret rooms and mazes have all been perfectly designed and executed. Come on Nintendo, how about the same game for the NES!

This GB cart is so good that even the biggest skeptic will admit it even in black and white. Perfect game play that is loaded with all kinds of items and secrets. The graphics are extremely detailed and very good for a small screen. The music is also very good. Bring it back up and over 25 levels of action. Don't miss Mario 2!

Super Mario Land 2 is just about my favorite GameBoy title. The large adventure, and large characters help reduce the horrible blurring of the screen somewhat. The sounds are pure Nintendo, and upstage most NES titles! I'll have to give the game a "job well done" salute for this one. Color would be nice...

Jeannie Jungle, the love of Master Higgins, has been kidnapped once again - by a flying saucer! Help Higgins rescue her in this sequel to the original Adventure Island hit.

Comb the exotic and dangerous islands while battling birds, penguins, crabs and other nasties. You must collect power-ups in order to replenish your life meter and to advance. A lizard or two may help you along the way ... if you're lucky!

If it weren't for SMB 2 on the black and white portable, this game would be in contention for the title of best action cart! Adventure Island 2 is the perfect companion to SMB 2, with slick graphics, nice pace and the right amount of fun. Throw in power-ups, multiple messages and super challenge and you get a great game!

This is not only an outstanding version of Adventure Island, but it is one of the best Game Boy carts to come out in a long time. The game plays very well considering the small screen and all of the familiar play mechanics of the series is built in. A great game to play when you're on a long trip as it's easy on the eyes.

Another high quality GB cart! Road trip to Vegas anyone? NOT! This sequel features improved graphics and sounds as well as better game play. The addition of the dino buddies and stocking up weapons for the beginning of the round is a plus. Lots of levels and plenty of challenge. A little blurry at times but still very good

Adventure Island 2 does just what a sequel should do and improves on its predecessor! The graphics, though blurry, are much more detailed than the original, and the added option of gaming dinosaurs as well as the ability to switch weapons before starting a round are excellent. Though in B&W, it's a solid title.

Take your Game Gear out to the ball game with Sega's latest sports title, The Majors Pro Baseball.

Select your players in this MLBPA endorsed game, using the authentic roster or hear all the umpire's calls with the unique voice digitization. Bunt, steal, or just hammer one out of the park in the animated cinemas. You can even choose from 3, 5, 7 or 9 innings and three different stadiums in this grand slammer!

Sports games are a hard sell to me and being on a portable, they don't make a cart's case any easier. But I found a lot to enjoy in this GG offer, especially some nice animations and easy play control. The computer puts up a decent battle, but the combination of strategic and head-to-head BB overtones left me happy

Easily the best baseball game for the system. The key items of pitching, batting and fielding are very easy to control and can be mastered in just a few games. There should be a way to make the game more difficult as the computer is really quite dumb. The addition of the real players is a feature that baseball fans will like.

This is an average baseball game for the GG. The graphics are pretty good and there are quite a few options. The game play is OK, but needs a little polishing. Running the bases is difficult because of the tiny players on the screen. The computer is too easy to strike out and the game get boring and repetitive easily.

Major Pro Baseball is a good baseball game for on the go, but it can sometimes get irritating with the noisy sounds. It plays fairly concrete, and gives you plenty of options to toy with. The graphics are well done in the behind-the-scenes scenes, but break new wind in the overhead shots. It is a decent GG sports title, however

Hop on your ostrich and prepare for a tournament of danger in Joust! The arcade classic is now on the Lynx for all you portable gamers.

Knock your Pterodactyl enemies off of their buzzards to complete each level and rack up big points. As you progress further in the dark and murky lands, you'll face more dangers like burning bridges, disappearing platforms and Lava Trolls. Grab your lance for a real challenge!

Joust is one of my all-time favorites despite its repetitive nature. The real test of this game is the similarity of execution and, in most respects, the Lynx version comes out with flying colors. The screen size makes it difficult to judge encounters accurately, however, detracting from a good game.

Wow! Another game from my era. Atari has done a remarkable job of recreating the feel of the original arcade title and even though you are going the same thing level after level, the game does stay challenging as it gets more difficult to clear the levels as you progress farther into the game. A great blast from the past.

Joust is one of my old arcade favorites. It is repetitive by nature, but plays really well and building your score through surviving is the key goal. Everything is practically identical even the sound effects! The only problem is with the tiny screen the game seems kind of cramped and judging the height of your pole is difficult.

Joust on the Lynx is just what the doctor ordered for this old game! Many of the same tricks from the original arcade (like slipping through cracks) are intact, to my delight! Joust should provide hours of fun for those of us who missed the original arcade classic. Just remember to keep an eye out for that fire troll!

*An interview with Ed Annunziata,
developer of Ecco the Dolphin™ for Sega™ Genesis.™*

Life as a

Why a game about dolphins?

Humans are intrigued by dolphins, by their intelligence and ability to communicate with each other. Also the sea as an environment is a pretty interesting contrast to other video games. Most dangerous places aren't beautiful or inviting. But the sea is.

Dolphin

Why the name Ecco?

Ecco is a homonym for Echo. And in Italian it means "I see." So it's a good name for a game where the players use sound to see and communicate. Ecco must use his echolocation to find and rescue his family. Communication is the basis for the entire game.

without ever

How did you make the dolphin motion so lifelike?

Our first task was to duplicate the "feel" of a swimming dolphin. It wasn't easy. The dolphin began as a simple stick figure while we worked on its movement. We created a menu of the physical laws of gravity, water viscosity, and momentum, then we fine-tuned it for months until we felt it was absolutely perfect. In fact, Ecco has been redesigned nine times.

winding up in a can

So the realism was important?

Yeah. We wanted the motion to be so realistic that the player would feel like he was actually the dolphin. The action of the game is so different from other video games that most new players will be totally blown away until they get a feel for it. It's a bit like learning a new sport. And I have one last bit of advice for everyone. Look beyond your eyes with your song.

...Sega To Release Genesis 2 & CD 2...3DO Unveiled...Atari Sues Over Lynx...Sony Nabs Rights to Action Movies...
...Jurassic Park On Multiple Systems...Super Mega Man and Final Fight 2 Announced...Sega To Use Military Tech...

...Heh, heh, heh, kiddies, the Quarter-witt has returned to dazzle your doorknobs with the latest goop from the gossip world! To quote the big B., the times they are a changin', and yours truly is out to set the tone with a bag full of gaming goodies that are wicked awesome! We start our trip down secret street with some mega-boffo news on the dream machine from the Tripster! The Q-sleuth managed to cut through the barbed wire and dodge the assault rifles and tear gas for a front row seat at the unveiling of 3DO to a room full of programming-types! The four-day event, which lasted three days too long, gave the hardware heads the up-close-and-personal they had been waiting for ever since moi first unveiled the super system earlier this year! What we saw were a couple of zippy demos, including a flight through a sort-of realistic canyon as well as a cube complete with bouncing balls on every face. This software show-off displayed twisting rotation, skewing, and the ever popular translucent effect! But did I also see - it can't be - say it ain't so - SLOW DOWN! ARRRR! True, it was only a demo, but let's hope the games this next generation monster produces don't rely heavily on slow-mo effects! It was a sexy-keen machine, but at \$600 (that's 1.5 Neo-Geo's on the vid-game scale of economics) it should come with its own wide-screen TV...

Speaking of 3DO, the Q-rassic one has learned that the machine will get Spielberg's upcoming dino flick, Jurassic Park! This means 3DO joins the ranks of Ocean, who was reported to have paid some major \$\$\$ to secure the Super NES rights to the man-eating monster movie...Speaking of softs based on cinema, it appears Sony will be packing a one-two punch next summer with vid-game adaptations of the two major blockbusters! Both The Last Action Hero (Arnie's entry) and Cliffhanger (Stallone's bone) will come repackaged and repixelated courtesy Sony...Sega won't bow their 32-Bit bomb on the gaming world until '94. Seems CD is just the grooviest!...

Speaking of Sega, they have some big packaging plans laying just around the corner! Get your little Q-inspired selves ready for the debut of the Genesis 2 and Sega CD 2! Before all you recent CD buyers start the countdown to launch the scuds, however, take note that the new systems will be the same as the old ones. I guess Sega just got sick of the way they look. It happens...And while we're on the subject of Sega CD, the Q-Mann thinks all of you nutsoids out there that think Night Trap and Sewer Shark are just the peachiest things since fuzz should know that both games were created almost a decade ago for Hasbro's defunct Nemo system. What you're playing now is what vid-game pioneer Nolan Bushnell wanted you to have in your home eight years ago...Meanwhile, the company responsible, Digital Pictures, is working on their next CD epic called Ground Zero Texas!...

...With sales of the Lynx sys and softs falling, Atari is turning to other sources for revenue - like court! Watch this space for the results of Atari vs. Epyx executives, round one, in an upcoming issue...Did you know that EA's upcoming Blood and Guts Football was originally presented to Atari as a spec script for the Lynx in 1990?...Hats off to the folks at Malibu Interactive! Their Batman Returns and Joe Montana scaling and rotation routines for the Sega CD knocked head honcho Harris to the floor! Did I hear someone say "House on fire"?...Look for both Sega and Acclaim to start implementing texture mapping and synthetic actor applications in upcoming games! Both techniques are derived from super-secret military type stuff! Here we go once again with the Q-Mann CES Preview: GLOC appears for Genesis, along with Strider 2...Final Fight CD appears for Sega in Feb...Super Mega Man and Final Fight 2 debut for Super NES, with more EA Sports titles and the first super FX title, Star Fox (the name will change)...Mortal Kombat won't show for any platform (even though Acclaim is hard at work) and Capcom won't show Street Fighter 2 - Champion Edition. I can't wait for Nintendo's latest CD announcement - how about 64-Bit, plays all Super NES, NES and GameBoy carts, with a retail under \$50! We can see through it guys...

...On the film front.....The man who told us all to call 911 - Steven Seagal, not William Shatner - will return to defuse a biological war crisis in Under Siege 2 next year...Finally, catch this one. The upcoming Disney movie based on the game, Super Mario Bros., will clock in at over \$50 mill! The Bob Hoskins-Dennis Hopper film is said to have some mind-blowing sets, but it should with its mind-blowing budget! Dennis Hopper as Bowser? How repellent!...

EGM EXPRESS

3-D-O DEMOS \$700 CD-ROM SYSTEM FOR EGM

Will it be 32-Bit? Is it a CD-only game machine? Can you play games over your cable system? Is it the system of the future?

These are the rumors that are spreading about a new top-secret high-end game system called 3-D-O (the O in 3-D-O doesn't stand for anything!).

While other mags are content to print rumors and wait until CES for the unveiling, our EGM editors tracked down the company and flew to New York last month to have an exclusive one-on-one interview with the president of 3-D-O, Trip Hawkins (of Electronic Arts fame) to get the real facts on the system.

3-D-O is going to be an all new CD-only game system. It will be the most powerful and technologically current system ever made. At its heart will be a 32-Bit RISC processor (similar to that being used in the new Apple NEWTON) that runs at a speedy 25 Mhz. Unlike other game systems, this speed is actually much faster as the 3-D-O is processing compressed data through the CPU rather than standard code. The 3-D-O will be a CD-only machine and the CD drive will run at twice the normal speed of other systems. This will result in a faster data transfer rate and fewer, if any, 'blackouts' for disc access. Also, with 16 megabits of internal memory (and even more available on plug-in cards), the 3-D-O will be able to store a larger 'chunk' of data in memory for the additional graphics chips to play with. These chips will have the ability to do hardware multi-axial rotation, scaling, zoom and fade, all simultaneously!

The 3-D-O systems will carry this logo.

The sound chips will be able to simulate any type of effect including the popular Dolby Surround Sound™.

The 3-D-O is being built with lots of expansion and accessory ports that will allow the system to handle virtually any technology either present or future. Real full-motion video can be handled with a plug-in MPEG-1 or 2 card. It has ports for MIDI, a keyboard, multiple controllers and much more!

What's really important is that the 3-D-O is not just another game system. It represents a quantum leap beyond anything that Sega or Nintendo has, or is planning. For example, current 16-Bit systems will display about 256 colors. In the hi-resolution background mode the 3-D-O will display 16 million colors! In its normal mode the number is still 32,000 colors. Current 16-Bit systems will animate about 1 million pixels per second, whereas the 3-D-O animates from 36 million to 64 million pixels per second.

With specs like that it is easy to see that the 3-D-O has the future in mind, and that is important. Many a system looked good on paper like the ill-fated Nintendo 16-Bit CD-ROM and even the current Sega CD-ROM, but by the time the product reaches the consumers, its technology is old. Also, talk is cheap but it takes a lot of money and major players to make a new system work. 3-D-O has both. With backing by Time-Warner Software, MCA, Matsushita and more, 3-D-O will get off the ground. At a recent developers conference over 470 people attended to see what the

system could do. Many are already working on software for the 3-D-O. New licensees are being added each month and with over 50 companies including Paramount, Virgin, Ocean, Maxis, Interplay, Spectrum HoloByte, Dynamix, and of course, Electronic Arts already signed up, there won't be any problem of not having enough software!

3-D-O plans to have the system in the stores this fall along with 30 games that will include John Madden Super Football, Super PGA Golf, a yet unnamed flight simulator and a super hot version of the upcoming movie Jurassic Park! Unlike the Sega or Nintendo systems though, the hardware will not come from only one manufacturer. Anywhere from three to six different companies (including Panasonic) will have 3-D-Os on sale under their own name.

The down side to this gamer's dream is the price. 3-D-O expects the system to sell for about \$700!

There will be a working model at the CES and we will be back next month with more info!

CAMERICA TO MAKE \$15 NES CARTS

Some companies believe that the older 8-Bit Nintendo system is near extinction. Camerica, an independent developer and manufacturer of NES games, believes otherwise. It is their thought that with some 30 million systems in homes, that the demand for new games is still there, it is just that the price of cartridges has risen to the point where the normal player can't afford to buy the new games. With new cartridges now selling between \$40 and \$60, Camerica just might be correct.

With the idea of lowering the cost

The Aladdin consists of a master module and the individual game cartridges.

of the games, Camerica looked at the cartridge itself and found out that there were a lot of components that were being duplicated over and over again in every game that was made. Some of these included the security chip, backup battery and MMC chip. What if all of the extra components were put on a one time master board and all you would have to buy was a mini

Camerica has reduced the game cartridge to its simplest form - the game chip on a board.

board with the game chip on it? That would drastically reduce the cost of each game!

From this idea the Aladdin was born. And not only is it ingenious, but it works. Camerica has reduced the game costs down to a more affordable \$15 and \$20.

Working with Camerica, EGM has obtained a prototype of the Aladdin and tested it out. The system consists of two pieces: the base module which has all of the components that are normally duplicated in every cart and the game cartridge which has the program chip.

The base module is about the same size as a Nintendo cartridge with a hole in its center. This is where the game cartridge, which is about the size of a GameBoy cart, plugs in. The combo package then plugs into the NES.

As to the price, Camerica made good on their promise. The low-meg games will sell for \$14.95 and the more involved high-meg games will retail for \$19.95. The one-time-purchase base unit, will cost \$29.95.

Camerica promises to have about a dozen Aladdin carts ready in time for its roll-out this Spring and dis-

GENESIS 2 AND SEGA CD 2 COMING

Two seems to be the popular number with Sega these days. First there was Sonic 2 and then Streets of Rage 2.

Now Sega is very quietly readying a Genesis 2 and a Sega CD 2. Both systems are expected to be rolled out later this year.

Sources at Sega indicate that this system change will not affect the current configuration (resolution, colors or sprites). The new system will be completely compatible with all previous versions. The modifications are being done to consolidate components which will reduce Sega's manufacturing costs. It should be noted that this is not something new, as Sega has made several rolling changes to their Genesis last year.

What is new though, is that this time Sega will change the shape of the Genesis and Sega CD. The new versions will be slimmer and sleeker.

Although cost saving measures are constantly being incorporated by all of the game companies, analysts state that Sega is very concerned with Nintendo's statement that they will sell their 32-Bit CD-ROM add-on peripheral for under \$200, and that Sega is now going to try to get the costs of their new Sega CD 2 down to a level where they will be able to match any future price point that Nintendo will eventually sell their peripheral at.

It sounds like there is going to be a CD-ROM price war between Sega and Nintendo next year!

Camerica's older cart, The Adventures of Dizzy, will be the first Aladdin game.

cussions are under way with some of the current Nintendo licensees to get more companies to make Aladdin compatible carts.

Now, if Camerica can only carry this idea over to the Super Nintendo system to bring the 16-Bit game prices down to a level that everybody can afford!

FATAL FURY 2

In this sequel, players have the ability to pick from a variety of new characters.

Sequel, sequel, **SEQUEL!!!** This seems to be the latest rage in the video gaming industry. Make a great game, wait a year, and then make a sequel. The funny thing about all this is... **we love it!** A great game deserves a sequel, and SNK's Fatal Fury 2 is a great sequel.

Terry and Andy Bogard (love that name) are back with their karate-bud Joe Higashi. This time around, however, we have the option to pick between **eight** characters (including the original three)! Wait until you check out Big Bear, Mai Shiranui or

Kim Kaphwan to name a few. SNK made Fatal Fury 2 even more tasty by adding a same player vs. same player option! Wow!

Graphics and sound have been slightly improved, and each

The same character vs. same character mode is sure to settle a lot of arguments.

character still has the ability to execute devastating special moves. Fatal Fury 2 is a sequel that is definitely worthy of its namesake!

Special moves can be done by using certain joystick and button combinations.

• HOW IT RATES •

It's a simple fact of life; you make a sequel of a good movie, game or whatever, and immediately the sequel is judged by the merits of its predecessor. Fatal Fury 2 is one of those sequels that is good enough to stand on its own.

The graphics and all-around playability of the game are excellent. The same character vs. same character option, while not original, is a good addition. But above all else, this game is fun to play (and let's face it folks- that's the most important thing!) Great job SNK!

THE GAME DOCTOR

THE GAME DOCTOR Qs AND As

Welcome back to yet another installment of the EGM Game Doctor. We're a little tight on space this issue, so let's get right to business.

Q: I was wondering if the Sega CD could be called a 32-Bit machine? After all, the Neo-Geo claims to be a 24-Bit machine. Is it?

Also, how did the *Sonic 2* sales go?

Daniel Wayne Lee
Pensacola, FL

The Sega CD cannot be termed a 32-Bit machine at this point in time.

A: The question of determining the status of multiprocessor video game systems has confused users for years. It started with NEC's claim that TurboGrafx 16 was a 16-Bit system. Traditionally, however, systems are designated by the power of the CPU. Whether processing power is determined by adding together all processors or by the CPU alone is an unresolved issue. But by no stretch of the imagination should the Genesis with CD be dubbed a 32-Bit machine. Personally, the Doc still prefers CPU designation as the prime source for determining a video game system's efficiency.

On the other hand, co-processor power can't be ignored. Just try to look at the big picture.

As for *Sonic 2*, the game appears to be a resounding success.

LETTER • OF • THE • MONTH

Q: Honestly, which system do you think will win the video game war, Genesis or Super NES?

Eric Hill
Trotwood, OH

A: So far, even the battle-fields in the ongoing struggle for video game supremacy have

been tough to define. At the 16-Bit level, Sega waged a much more effective campaign than it did in the 8-Bit sweepstakes. Nonetheless, Nintendo's marketing skills still make it the odds-on favorite. Yet, even number 2 could be a successful slot.

Q: I'm writing to ask you for info on this winter's CES. How do I get in and where is it held?

John Lee
Santa Ana, CA

A: We're too late for WCES '92, but that show wasn't open to the public. With the exception of SCES '92, CES has been a trade-only show. Last SCES broke tradition by allowing public access on its final two days.

SCES '93 will allow the public in on June 6, its final day.

The summer show is held in Chicago, while the winter show takes place in Las Vegas, NV. For further information, write to:

Consumer Electronic Shows
2001 Pennsylvania Ave, NW
Washington, DC 20006-1813

The latest in video game technology will be on display at the WCES in Jan.

Q&A Quickies: Curt Keller of Duncansville, Pa., wonders if there will be a color GameBoy. Unfortunately, Nintendo insists that no such system is in the works. . . . Jamison Boyer of Fremont, Calif., asks why CDs cost less to produce than cartridges. The answer is, they don't necessarily. It's just that a CD is costs less to turn out than a cartridge. ROMs are expensive which is why 8-Bit games carry a fairly high price tag.

That's all for this issue. Aloha.

Howdy game fans! The Aki-Mann (sorry Q) has returned with the latest and greatest facts and figures from throughout the far east and beyond! As you can see, this month is bursting with some super softs for all of the hottest game systems and plenty of talk on new peripherals and games that are sure to take the entire world by storm!

On the street here in Japan, I've started to see a lot of interest in Mario Kart! Although this game is several months old, its popularity has continued to escalate here in the Land of the Rising Sun! Several Mario Kart competitions were held recently and Nintendo is talking about a national Mario Kart contest that will pit the most awesome street fighters (oops, pardon the pun!) to a one on one face-off! Don't be surprised if you see a special edition Mario Kart update released sometime in '93 here in Japan. With the game currently enjoying such popularity, it might even make it across the Pacific!

Are you getting tired of alien colonies from distant parts of the galaxy coming to Earth and attempting to take it over? Not any more! In Bio Metal, you fly to the alien colonies and kick their butt for a change!

Not only is the story a bit different from many other shooters on the market, Bio Metal also features a unique power-up system to add even more excitement!

The number of power-ups collected depends upon how well you are doing throughout the game. If you seem to be able to breeze through without losing many lives, the power-ups can really become scarce. However, if you're really bad and you seem to die from nearly everything, the computer will compensate and the power-ups are literally shoved down your throat!

Now about the game! There are eight levels with three sections in between. In these sections, you must face a mid boss before coming across the biggest and baddest boss of the level.

Do you think this huge ship is a boss?
Wrong! It's just a mere mid boss.

Now this is more like it! This ship's flailing arms are the worst threat.

If you really are a champion player,
you won't be seeing many power-ups.

Other games that continue to top the charts here in Japan include Dragon Warrior 5, the first 16-Bit entry into the DW legend, as well as new entries this month like Magical Quest with Mickey Mouse for Super Famicom and Sonic the Hedgehog 2 for the Mega Drive. Although Sonic debuted on the same day in Tokyo as it did in the U.S., it has sold very well nonetheless.

Sega's new arcade Holosseum game duplicates 3-D street fighting titles!

NEW FOR THE ARCADE...

Did you play the new Sega Hologram system for the arcade? Their first title was called Time Traveler which, for the most part, resembled a typical laserdisc game like Dragon's Lair. In Japan, Sega recently unveiled an update for the Hologram system that duplicates - you guessed it - a street fighting game in pseudo-hologram form! Called Holosseum, the game pits either one or two players against each other in a battle to the death in a geometrically-filled arena. The number of moves isn't as extensive as some games in this genre, but the effect is cool enough to warrant a try. Sega plans to offer the game as a kit so arcade owners who bought the original Hologram game will now be able to update it with Holosseum. Expect to see this high-tech title in the states soon.

Dragon Knight II became a sleeper hit with Japanese role-playing fans. What made it popular is the fact that it was noticeably different from other RPGs because the game opted for lots of women instead of beasts, with some slight characteristics of monsters.

Enter Dragon Knight III! With more action and more scantily clad women to attack, this game should really entice the Japanese market! DK III promises a longer quest, nearly two times greater than the first episode. Since the game is still preliminary, only the cinemas are ready to be shown.

All the characters you face come to life with true voice and movements.

The story now revolves around this lovely young woman named Runa.

NOW, FOR A DIFFERENT KIND OF GAME CODE...

We're all familiar with video game codes, but now Namco has brought new meaning to the term "video game code" with their Bar Code Boy peripheral for the Nintendo Gameboy!

The Bar Code Boy is a device that was originally developed by the Epoch Group. Namco, however, has built the device to interface with the popular handheld. Living up to its name, the Bar Code Boy is able to read bar code characters and diagrams and translate the information into game play. Namco will soon be offering Japanese consumers the chance to purchase the Bar Code Boy with special software that will not only read the bar codes, but also be able to play games like Battle Space (which should retail for around thirty bucks). Battle Space involves characters like wizards that use special magic as part of the game play.

Namco expects to have future games utilize the Bar Code Boy's advanced abilities. Among the games in development are a horse racing title, a baseball contest, as well as a variety of RPG games. The unit should tap in at around sixty dollars for the machine, cables and cards and a U.S. release has yet to be decided.

Namco's latest peripheral reads bar codes and enhances game play!

Get to the first major cliff and jump across it by way of the floating rocks. At the end of the second major cliff, you will see another set of floating rocks. This is the area in which the trick will take place. You can make sure that this is the right place if you look at the pictures on the top right-hand side. Sand people will also be chasing you from the left side of the screen. Once you are at this point, fall off the cliff and push LEFT on the control pad. Instead of falling to your death, you will catch the edge of a cliff near the bottom of the screen. There will be an opening to the left. This is a dangerous place, because rocks will be falling constantly. Once you enter the small cavern, shoot all around the cave. Tons of 1-Ups will appear near the top part of this section. Jump up on the small platform in the middle of the cavern to collect the extra lives that appear. When you can't collect any more lives, run to the right and fall off the edge of the cliff. When you start again, repeat this for up to 99 lives.

Follow this trick to acquire as many as 99 lives!

SONIC THE HEDGEHOG 2

2 PLAYER GAME ON TP SCREEN

Go to the Options by pressing the pad DOWN twice at the title screen. Make sure you are playing "Sonic and Tails." Go into the game and using controller 2, move the pad in any direction, or press any button and you will see that you can move Tails anywhere on the screen separately from Sonic! This will make it easier to work as a team and complete the game. Also, since Tails cannot die, you can use him to defeat the bosses and just have Sonic avoid them. If you want to go back to the one player mode, just leave Tails alone and he will go back to following Sonic.

Use controller 2 to play as Tails. Now work as a team!

To access this secret game, get to the title screen of the three games (Gate of Thunder, Bonk's Adventure, and Bonk's Revenge). Bonk should be standing to the left of the Gate of Thunder title. With the control pad, press

these buttons in this order: UP, RIGHT, DOWN, LEFT, button II. You will hear a ringing sound. After a few seconds, the screen should change into the Bomberman title screen. You now have a 4 in one game disk instead of 3! When you play Bomberman, you will notice a few new icon changes that will give you massive points and other items.

Do the code when Bonk is next to "Gate of Thunder."

You will access a fourth game in this disk. Enjoy!

Take It To The Streets...

CRASH 'N' THE BOYS STREET CHALLENGE

"Crash" Cooney and his posse from Southside High own every sports record in Spring Hill history. Legends? Heroes? Not in this town—where Todd Thornley and all the rich snobs up on the Hill think Southsiders are low-lifes.

So Todd and the silver-spoon mama's boys at the three "Hill" schools have issued a desperate challenge to save their fading reps: Let's take it to the streets in the Southside...no rules...no refs...no penalties—and we'll see who comes out in one piece.

And just in case the Hillers can't handle Crash 'N' The Boys, Todd's rich daddy has fielded Team Thornley—a ringer group of super-athletes from Thornley Industries.

Five radical events. Five motivated teams. Five members per team. Only one winner.

Hot Sports Action For 1-4 Players!

Southside's Crash Cooney sets another 400M Hurt-les course record. Crash and the Southside Boys—Cheese, Noise, Dragon and Sting-Ray—put the Hillers to shame.

Todd Thornley forgets to let go and takes a ride in Hammer Throw Golf. His Washington High team has been humiliated by Crash once too often. This time it's personal.

"Spreck" Spreckles, Jefferson High's captain shows his lethal moves in the Water Slaughter. He thinks Lincoln and Washington are almost as bad as Southside. Almost.

Arte Van Smythe vaults from rooftop to lowering rooftop in the Skyline Scramble. Lincoln High's team captain despises the Southsiders—especially Crash.

Rocky Rockowitz makes use of the devastating super kick in the Judo event. The elite, computer-controlled Team Thornley is out to crush Hillers and Southsiders alike.

You quickly find out that the girl had quite an imagination as you must battle with the worst thoughts that the girl ever had!

Fight through futuristic cities filled with cybernetic enemies and to the skies in a dramatic airborne battle through space.

The game plays off of the 'hit point type' so you don't simply die with one hit! You and the enemies each have these bars so watch closely or it could be a nightmare!

The city provides a battleground between you and a dream monster.

Proper timing allows you to swat down these pesky flying creatures.

HUMAN NATURE

PART FIVE: PHILOSOPHY

Since the dawn of history, these paradoxes have taunted humankind:

WHAT IS THE SOUND OF ONE HAND CLAPPING?

IF A TREE FELL ON A HUMAN ALONE IN THE FOREST, WOULD THERE BE A SCREAM?

WHICH CAME FIRST, THE PTERODACTYL OR THE EGG?

HOW MUCH WOOD COULD A WOODCHUCK CHUCK IF A WOODCHUCK COULD CHUCK WOOD?

THOK! THOK! THOK!

RENOVATION

ROAD AVENGER

SEGA CD**CD****CD-ROM**

Prepare yourself for a driving experience unlike anything seen before! Renovation has ported over the Mega-CD driving game Road Blaster FX and renamed it Road Avenger.

With backgrounds that look similar to Cobra Command, this super simulation puts you behind the wheel of an awesome speed machine!

This isn't just a joyride, however. There are others cars who would rather have you in a ditch than on their road. Seek revenge by slamming into them to send them into certain doom like over cliffs and into trucks!

A nice CD soundtrack accompanies your drive through the danger-filled streets.

Roadhogs! With this tanker and semi blocking the road, what will you do?

Have a bit too much to drink? Swerve away to avoid this near collision!

Up close and personal, eh? Make this dude fly when you slam on the brakes!

SEGA

FINAL FIGHT CD

SEGA CD**CD****CD-ROM**

Metro City used to be a calm place where children could roam freely without harm. That was before Belger and his goons took charge of the biggest crime wave ever to hit Metro City. To top it off, Belger has even kidnapped the Mayor's beautiful daughter!

This incredible version of Final Fight is finally available on the Sega CD! Guy, Cody, and Haggar are all included as well as, yes, two player simultaneous play!

Now, two fighting machines can battle the forces of Belger through the heart of downtown Metro City. All the stages from the arcade have been faithfully redone along with a jammin' CD soundtrack!

Take to the streets and rescue the lovely Jessica in this super translation of Final Fight!

Enter the arena where you must thrash these two pro wrestlers!

Remember this dude? He's back, and now he has more friends with him!

HI-TECH EXPRESSIONS

TOM & JERRY™

SUPER NES**4 MEG****CARTRIDGE**

The classic cat and mouse duo is finally coming to the 16-Bit game scene from Hi-Tech Expressions! Take the controls of Jerry, the witty little mouse that seems to outsmart Tom at every encounter.

Tom has kidnapped the extremely cute Nibbles and it's up to Jerry to save him! Since Tom is a crafty cat, Jerry must travel through some very unlikely places to search for Nibbles. Play through stages like a movie projector, theater, and even a stinky old junkyard.

Jerry can attack enemies by repeatedly jumping on them or throwing marbles that he collects along the way. Pick up cheesebits for points and hunks of cheese to replenish your life meter. Relive the cartoon high jinks all over again!

Take on popular movie monsters as you escape the movie projector stage.

Yikes, it's Tom! Throw marbles at him when he's not looking at our hero.

YOSHI'S COOKIE

SUPER NES

8 MEG

CARTRIDGE

Yoshi's Cookie for the GameBoy and NES met with such great success that Bullet Proof Software will be introducing a Super NES version of this great puzzle game!

Mario has baked some cookies out of order so now it's up to Yoshi to gather up the cookies and rearrange them according to the same cookie type.

The game play consists of rows of cookies that fall at a feverish pace. Lock a cursor onto a cookie and rotate the pieces around it until you match up three or more cookies. Then the cookies will clear the screen and a tally of those cookies is kept for reference. For more action, try the two player mode. Here, the screen is filled with cookies and the two players must compete to be the first to clear out all the cookies.

In the one player mode, eliminate the cookies with the crosshairs to score!

The two player mode is a grueling race to wipe out your cookies first.

CARTRIDGE

Medieval legend recalls a noble king called Arthur, a mighty warrior and noble leader of countless brave crusades. When Arthur assembled a mighty army to battle a new invading force Arthur had an unexpected surprise, he and his men were transported to three magic worlds where strange things were happening.

This new puzzle game is the first to feature Q-Sound, Jaleco's version of Dolby Surround Sound. Just play this game on a stereo system and you'll hear music like you've never heard before! It also is completely mouse compatible!

The game begins with a series of tests where you will learn the skills of archery and bombing. After that, it's off to conquer the lands as only Arthur could do!

Can Arthur avoid death from this trap?
 Successful planning is the key!

Time the bridge so Arthur and his troops can cross with dying.

SYVALION

SUPER NES

8 MEG

CARTRIDGE

The dragons are coming! Syvalion isn't a standard fare shooter by any means. No space ships or men in exosuits here. Take control of a cybernetic dragon as you weave through oceans of maze-like levels.

Your only chance for survival is your flaming breath! The flame does massive damage, but it only lasts for a few seconds. The flame must be constantly recharged to keep the juice flowing.

Enemies are never far away and many give up bonus points when they are destroyed. You must also keep a watch over your tail section because it is susceptible to harm from the enemies you will face throughout the game.

Stage 1 is rather easy but the enemies are always everywhere you turn.

The fire meter at the bottom of the screen displays the fire's power.

Meet Boss 1! It has a simple pattern so watch for it and attack to proceed.

JALECO**UTOPIA**

SUPER NES | 4 MEG | CARTRIDGE

A Utopia is defined as a perfect place for everyone to live in harmony with themselves and their environment. This is the idea behind Jaleco's Utopia.

Create your Utopia from a barren landscape on an alien world. You must keep constant watch over your peoples' demands for living quarters, entertainment and protection from alien onslaughts.

All these items can be purchased with money collected from your peoples' taxes and funding from other planets. Each item purchased can have certain advantages and drawbacks to them, too. If you manage to get a barren wasteland populated, you'll be ready to take other challenges that await you in Utopia.

This is the screen where you will build your structures and make changes.

Choose from a wide variety of buildings that will suit your needs.

Your senior advisors will offer advice to the ever changing situations.

JAM WITH THE BEST IN THE NBA.

Barkley's Monster Dunk.
Drexler's Tomahawk.
Malone's In-Your-Face Jam.
Rice's 360° Slam. Manning's
Double Pump Jam. Ewing's
Bounce-Ball Slam.

Welcome to Jam City. Bulls vs. Blazers™ and the NBA® Playoffs.™

The game that raises pro basketball to new heights. With the complete rosters of all 16 1992 NBA playoff teams. The '92 East and West All-Star squads. And 5-on-5 action so hot, it scorches the hardwood.

With 5-on-5 gameplay, you get the biggest piece of NBA action anywhere.

You get the signature moves of the best guys ever to lace up a pair of hightops. Dunks like Person's Alley Oop Slam and Kemp's Off-the-Glass Jam. Slick ball-handling like Hardaway's UTEP 2-Step. Rebounding machines like Rodman and Willis. And 3-point sharp-shooting like Mullin's patented jumper from the corner.

It's the NBA's biggest guns. And all their shots.

You start at Round 1 with all 16 playoff teams. From there, the action only gets more intense.

Establish your inside game. Hit a few treys. Play tenacious "D." Nail letter-

perfect foul shots with the exclusive "T" meter. Use up-to-the-minute game stats to know when a starter's fatigued and when to go to the bench.

It's a tall order. But if you can stand up to the competition, the NBA title is yours.

Hardaway's unstoppable UTEP 2 step

makes a huge splash

shatters the competition

SUPER NES ENCYCLOPEDIA OF GAMES AND CONTROLLERS

Welcome to the first, and only complete guide to Super Nintendo games. The EGM staff has contacted all of the Super NES licensees and in these 59 pages you will find details, pictures and comments on all of the existing and planned carts for this super system. At the end of this insert we have also included a page that gives information on some of the newest mega-hot Super NES controllers.

After all was said and done, we ended up with over 300 games! That is not too shabby for a system that is only about 1 1/2 years old! What's good, though, is as the system matures, we are now beginning to see new genres of games appear. RPGs, battle simulations and edutainment are but a few of the categories that companies are now beginning to create games for. Besides quantity, Nintendo is also constantly working on ways to improve the quality of the games. Their new FX chip will bring 3-D to the system, and Seta's new coprocessor games promise to add much needed speed to the slow CPU.

Of course, no list is ever complete. Companies are constantly adding, changing or deleting titles. This list is no exception, especially with the Winter Consumer Electronics Show only days away. At this event the game companies debut the games that will be coming out later in the year. Some of the licensees we contacted were reluctant to disclose their 'complete' list of games as they plan to have 'surprises' at the show. Therefore, for the most up-to-date information, save this listing and add the new titles from our big CES issue next month!

Master Higgins must seek out his kidnapped girlfriend through five rounds of kooky island fun! Master native weapons, too!

**Comments:**

One of the classic Super NES games is still one of the best! The music is absolutely awesome and the play control is flawless! A top winner!

**CLAYMATES**
Interplay / UKN Meg

A witch doctor has kidnapped Professor Putty. You must save him. By using his inventions, you can transform into clay.

**Comments:**

An interesting concept that has been done very well. The animation in this game is superb. The five different life forms are neat. Overall a nice job.

**THE LOST VIKINGS**
Interplay / 8 Meg

Three vikings kidnapped by aliens must find their way home by accomplishing a wide variety of tasks and puzzles.

**Comments:**

This is an awesome puzzle game. It is no small feat to get past this cart. The graphics, music, and interaction are top-notch. Hours of fun.

CONGO'S CAPER™

IT'S AN
EVOLUTION
REVOLUTION!

Joe & Mac's country cousin comes to the Super Nintendo!

If you were a monkey, just hangin' out in the jungle with your chimp-chick, and a magic ruby fell out of the sky and zapped you both, turning you into half-humans, and a demon-kid swooped down and made off with your girl — what would you do? You'd high-tail it after them and stop at nothing to save her, that's what — 'cause you're Congo, the monkey-turned-superkid, and only you can uphold the law of the jungle! But it's more than a jungle out there — your search for little Congette will take you from ghost towns to pirate ships to ninja castles to the belly of a Tyrannosaurus. This is no time for a banana-break — you'd better get down to monkey business!

SUPER NINTENDO

OUT OF THIS WORLD

Irem / 8 Meg

You were working late one night, when an experiment went horribly wrong. You wake up in a strange alien world.

Comments:

This plays like an interactive movie. The puzzles are complex, and the action is fast-paced. It is a good game that shows off the Super NES's abilities.

STREET COMBAT

Irem / 8 Meg

It's one-on-one combat with some of the wackiest characters this side of the universe. Tons of special moves.

Comments:

This is an Americanized version of the popular Japanese game Ranma 1/2. Great graphics and character animations highlight this cart.

DINO CITY

Irem / 8 Meg

After being teleported through time, you and a dino buddy must find a way to get back to the present day.

Comments:

Don't let its looks deceive you; this cart is purely a player's game. Tons of technique is required to solve this tough quest. A winner.

BRAWL BROTHERS

Jaleco / 12 Meg

The drug cartels are becoming bolder, and are holding the city in a grip of fear. It is up to you and a friend to save the day.

Comments:

A sort of Rival Turf 2, this game has better animation, smoother moves, and deadlier enemies. The overall effect is pretty impressive. I like it.

GUNFORCE

Irem / 8 Meg

Deep behind enemy lines, you and a friend must infiltrate an enemy stronghold. You are heavily armed, and very deadly.

Comments:

Great graphics, and intense power-ups bring this arcade translation alive. Two players make this game even better. A battle worthy of praise.

DEAD DANCE

Jaleco / 16 Meg

Another game in the now popular fighting genre. Fierce martial arts action featuring a competition to be the best warrior.

Comments:

This game doesn't look too bad. The many moves make each battle a struggle for survival. The music rocks, and the whole cart has an eerie feel.

IREM SKINS GAME

Irem / 8 Meg

Tee off in this realistic golf simulation. Tons of options will make each game different from the last. Fore!

Comments:

This particular golf simulation looks good, especially in the overhead view. If you like a nice relaxing game of golf, this one is for you.

GOAL!

Jaleco / 8 Meg

One of the all-time soccer hits of the NES is about to make its next appearance on the Super NES! More teams and skills.

Comments:

This was a great game for the NES, and considering the few number of Soccer games out there, this one sits above all the rest!

Not Recommended For Cowards.

From deep within Mordroc's Castle, a foul stench rises up to mix with the cold, damp midnight air. In the deadly caves far below the surface, the evil wizard's pet fire-breathing dragon, Singe, guards the captive Princess Daphne. You, Dirk the Daring, walk steadily toward the castle gate. You feel no fear—but then, fear is for cowards. No other would dare to enter this perilous castle where Mordroc has imprisoned the helpless princess. But for you, there is no other possible course to take. Now is the time for heroes. Now is the time to enter.

KING ARTHUR'S WORLD Jaleco / 8 Meg

King Arthur is preparing for the crusades, and he needs to train his knights for the rigors ahead. Will you join the round table?

Comments:

This puzzle quest is similar to previous attempts, but with traps, tools, and only one knight, this game gives you a real challenge.

SUPER STAR WARS JVC / 8 Meg

Join Luke, Han, and Chewbacca as they try to free the galaxy from the Empire. Will Luke stop the Empire's evil plans?

Comments:

This is the closest movie to cart ever. Never before has there been such detail, from the Dewbacks to the Power Droids. Everything is here!

UTOPIA Jaleco / 8 Meg

Create an ideal Utopia where the decisions are made by you. Plan your layout and prepare defenses for enemy attacks.

Comments:

An entertaining game where you have free reign over everything. The enemy attacks are challenging and the rewards for excellence are well received.

SYVALION JVC / 8 Meg

Harness the powers of the dragon in Syvalion. Guide your cyber-serpent through narrow corridors against vile foes!

Comments:

The control needs work, and the difficulty level might make this one too hard for the youngsters. An original concept, but it could be improved a bit.

DUNGEON MASTER JVC / 8 Meg

Journey into the dark foreboding depths of a dungeon. Battle terrifying beasts bent upon one thing: your destruction.

Comments:

The first-person perspective is one that truly puts you into the game. The game needs to be sped up a bit because it moves slow. Radical monsters!

CHESTER CHEETAH Kaneko / 8 Meg

The Cheetos eat'n machine is in his own Super NES cart. Free him from the city zoo, and watch his hilarious antics.

Comments:

The animation alone will lure you to this cart. The cartoon-like look and feel is well done. You'll laugh out loud when you see him shake his head in pain.

SUPER EMPIRE STRIKES BACK JVC / 16 Meg

Just like in the movie, guide Luke Skywalker as he fights the Empire. From Hoth to Bespin, all the movie scenes are here.

Comments:

This movie to game conversion is said to be done as well as the first in the series: Star Wars. Hopefully all the tiny details that were in the first are here.

POWER MOVES Kaneko / 8 Meg

Another fighting game in this popular genre. Fight in hand-to-hand glory. Yes, there are special moves, too!

Comments:

I like the backgrounds and the large characters. The moves are ok and easy to implement after a bit of practice. The graphics are really gnarly!

There are fast, tough-to-beat goalies who leave the crease to clear loose 'pucks, or lunge and dive to smother shots. Individualized moves, like glass-breaking slap shots, nimble stick action, and brutal body checks. Each player skating his own unique game.

Hot new defensive techniques and an improved computer opponent that raises the electricity in power plays.

Standing between you and the championship are scorers like Yzerman. Goalies like Essensa. Intimidators like Domi and McSorley. Each of the 550 pros rated on 14 characteristics based on 1992 playing stats.

PHALANX

Kemco / 8 Meg

Another alien fleet has come to destroy our home planet! Climb into your fighter and stop the insidious invasion.

Comments:

A cool shooter with neat scrolling backgrounds. The music somehow doesn't fit. A good shooter, and one that would interest fans.

TOP GEAR 2

Kemco / UKN Meg

Koei / 8 Meg

Journey back to feudal Japan, where three ninjas attempt to stop Nobunaga from taking over their country.

This RPG is very accurate in historical detail, and truly creates a feel of being there. It is also easy to jump into, so you can start right away.

UNCHARTED WATERS

Koei / 8 Meg

In the time of swashbucklers, try to build up a trading empire, while avoiding rivals and pirates out for your money.

Comments:

An RPG that isn't complex enough to turn away young players, yet still entice those who want a good satisfying adventure that's fun.

BATMAN RETURNS

Konami / 8 Meg

Based on the movie of the same name. Help the caped crusader stop The Penguin before he becomes mayor.

Comments:

Comments:

The attention to details in this game is really amazing. This is an all-around good action game; the cheesy explosions is the only flaw I can see.

KONAMI'S NFL FOOTBALL Konami / UKN Meg

Konami's bringing out a football game that features real teams and lots of plays. A real challenge to football players.

Comments:

The many perspectives available give a unique flavor to Konami's NFL, and sets it apart from the rest of its type. Overall one of the better football carts.

PRINCE OF PERSIA Konami / 8 Meg

NBA SUPER ALL STAR CHALLENGE LJN / UKN Meg

ROGER CLEMENS' MVP BASEBALL LJN / UKN Meg

Play ball! Fast paced baseball action is here. Test your pitching skills or step up to bat and hit a homer. Realistic sports!

Comments:

SPIDERMAN/X-MEN: ARCADE'S REVENGE LJN / 8 Meg

Spiderman and the X-men must fight their way through Arcade's funhouse of doom! Strange and unusual enemies abound!

Comments:

A very cool idea. It would be nice if the characters could be bigger. The whole effect of the funhouse is really awesome, especially Wolverine's level.

HYPER V-BALL Mc O'River / UKN. Meg

Play an intense game of volleyball in the comfort of your own home. Perform all the moves you can do in the real game.

Comments:

A fun way to spend an afternoon! I like the fact that you can slam the ball and then spike it into your opponent's face! Plenty of options to keep you busy!

SUPER NINTENDO

We ripped-off a perfectly good idea.

TRUE ARCADE ACTION. You'll find that the only thing missing from our new Super Advantage is the coin slot. Okay, so we added an extra long cord. And our joystick is easier to carry than an arcade machine, not to mention a few thousand bucks cheaper (that means under \$50, suggested retail price). Bottom line is, this is about as close as you can get without grabbing a crowbar and—well, you get the picture.

The layout's familiar, and the construction's tough enough to handle the most intense street fight or the ultimate pattle for the universe. **Comments:**

This game is very well done. The background scaling sequences look impressive. The voices are clear and easy to understand. The idea works.

WING COMMANDER

Mandscape / 8 Meg

Save the galaxy from an enemy invasion. Gear up, lift off, and battle in dangerous aerial dogfights to the death!

**Comments:**

Almost as impressive as its computer counterpart, you'll find this game will provide hours of shooting action. With 3 difficulty settings, anyone can be an ace.

**CAL RIPPIN JR. BASEBALL**

Mandscape / 8 Meg

An ultra realistic baseball simulator that recreates the game with precis' on. Everything you'd need for a great time is here.

**Comments:**

This cart seems to focus on realism, and does a good job of it. The game plays well, and is a fine example of how baseball should be done.

SUPER BATTER UP

Namco / 8 Meg

Yes, another baseball game. Just like the real thing, you control every aspect! Terrific graphics add to the sports effect.

**Comments:**

It holds its own when compared to the majority of baseball games out there, it also plays well, and will be appealing to baseball fanatics.

**OUTLANDER**

Mandscape / 8 Meg

Drive your car from settlement to settlement avoiding the roving gangs of thugs in a post-apocalyptic future.

**Comments:**

A violent game that is visually appealing. I like how the gangs attack. The side-scrolling levels are ok, but the driving is among the best!

**WINGS 2- ACES HIGH**

Namco / 8 Meg

Fly a variety of missions in one of the earliest air battles. Scaling and digitized graphics make it seem like you're flying.

**Comments:**

While a bit repetitive, this game is visually impressive. It really seems to put you in the cockpit. A cool game that packs lots of fun.

**TERMINATOR**

Mandscape / UKN Meg

An all new Terminator game is being created for the Super NES. Save Sarah Connor from the mechanical menace.

**Comments:**

This game looks like it'll be hot! With levels that use the powers of the Super NES, this could shape up to be a graphically intense cartridge. I can't wait!

**POCKY AND ROCKY**

Natsume / 8 Meg

A girl and her raccoon friend must save the land from an invasion of goblins. Lots of great shoot-em up action!

**Comments:**

SUPER TURRICAN

Seika / 8 Meg

You are a heavily armed cyborg en route to destroy an alien presence. Plenty of power-ups and total carnage fill this cart.

Comments:

This game looks really good. The parallax scrolling is done superbly, and the intensity of enemy attacks is a joy to witness. Very well done.

TKO SUPER CHAMPION BOXING

Sofel / 8 Meg

Strap on the gloves and get ready to box. It takes reflexes, skill and determination. Train your body and mind for combat.

Comments:

This is one of the better boxing games out there. The idea of training works well in showing the discipline of the sport. Quite challenging!

TRODDLERS

Seika / 8 Meg

Guide some little creatures called Troddlers in a series of puzzle-like quests. Lots of levels give you a lot of enjoyment.

Comments:

The Troddler eating traps is worth the price of admission alone. While similar to Lemmings, the many different tasks to do make this one better.

CHUCK ROCK

Sony Imagesoft / 8 Meg

For belly bobbin' thrills join Chuck Rock as he leads you on a hilarious journey through prehistoric Earth.

Comments:

This game is great. While some of the funnier elements have been taken out, the game is filled to the brim with excellent animation and colorful graphics.

F-1 ROC 2

Seta / 8 Meg

This racing cart shows off the Super NES with the new coprocessor chip. Lots of scaling makes this one stand out.

Comments:

Overall this racer is very impressive. The scaling and rotation are put to good use, and are a good example of the Super NES capabilities.

EQUINOX

Sony Imagesoft / 8 Meg

A magical storm has swept the land. Destruction is everywhere, and it's up to you to find the cause of this latest curse.

Comments:

This game features an unusual perspective, and utilizes rotation to a great degree. The result is a pleasing quest that is more action than RPG.

MUSYA

Seta / 8 Meg

The gate that's separates the dark world is about to open. Armed with only your spear, delve into the dark corridors.

Comments:

It looks good, and controls ok. The levels are long, but some repeat themselves later in the game. All in all, not too bad.

HOOK

Sony Imagesoft / 8 Meg

A fanciful adventure through Never Never Land has you assume the role of Peter Pan and save the day.

Comments:

The music is really good, and the graphics sparkle with a life of their own. The control needs a little work, but overall if you liked the movie, you'll like this.

WORDTRIS

Spectrum HoloByte / 4 Meg

Form words, and make them disappear! If they reach the top, you'll lose. Just as addictive as Tetris, but more challenging.

Comments:

You have to think really fast if you want to last a respectable amount of time. This game is a real good way to test your brain power and vocabulary skills.

FINAL FANTASY MYSTIC QUEST

Square Soft / 4 Meg

The elemental crystals have been stolen by the forces of darkness. Designed for the younger player.

Comments:

Even though this sequel is really easy to win, it's done as well as the previous Final Fantasy adventures. Great sound and graphics make it fun to play.

DEVIL COURSE

T & E Soft / UKN Meg

Pack up your golf bags and head out to the links! There are 18 holes of golfing fun over the most challenging courses!

Comments:

The number of golf games is always growing and this one is a welcome addition. With all the variables to watch for like wind and slopes, it's very realistic.

HIT THE ICE

Taito / 8 Meg

Hockey gets even more violent in this game. It gets so rough, sometimes the audience will get into the act. Ouch!

DEATH VALLEY RALLY

Sunsoft / 8 Meg

The Road Runner is here, and that pesky coyote won't leave him alone! Lots of cartoon guest stars will also appear!

Comments:

The game is cool, plain and simple. The animation is among the best, and it has a sick sense of humor as well. It controls well too. An all around good job.

Comments:

I liked the arcade game, and this one captures the spirit of it. The graphics are well done, especially the reflections. The voice digitization adds greatly.

ON THE BALL

Taito / 8 Meg

Rotate a play field around a marble. Try to get your marble to the exit before time runs out! It's like no other game.

Comments:

This is one of the most addictive games of today. It's a simple concept, but a cool one. The graphics won't grab you, but the playability will.

FIREPOWER 2000

Taito / 8 Meg

He's the latest and greatest superhero, he's Sonic Blastman. Send the enemies to their doom with a giant Bagoom!

Comments:

This game takes the arcade game and builds around it to create a comical war against crime. It looks, and plays good. And it's a long game too!

CYBERSPIN

Takara / 4 Meg

Drive one of the most advanced cars in this overhead perspective race. You pulse will race to the fast pace of this game.

Comments:

I like this game simply because it's easy to play, and it looks good. I wish they would have kept in the cinema displays of the Japanese version though.

FATAL FURY

Takara / 12 Meg

Andy and Terry Bogard's father had been killed in a martial arts fight. Along with their friend Joe, they must seek revenge.

Comments:

The graphics are hot, and the control is good. The ability to use the bosses is a plus. If you are looking for a good fighting game, try this cool cart.

KING OF MONSTERS

Takara / 8 Meg

It's wrestling with a whole new look! Assume the form of some gigantic rubber monsters and trash some major cities!

Tecmo / 8 Meg

Ever wanted to control the greatest teams in professional Basketball? Now you can with Tecmo's 16-Bit entry

Comments:

This glossy rendition of basketball will thrill anyone who likes the sport. The graphics are topnotch, and the game plays as well as it looks.

FAMILY DOG

THQ / 8 Meg

Every dog has his day, and this one has his own game. Based on a cartoon, control a pooch who's having a bad day.

Comments:

The graphics look pretty good, and reflect the cartoon nature from which it's based. An interesting idea that should appeal to the younger audience.

GREAT WALDO SEARCH

THQ / 4 Meg

Waldo's playing a major game of hide and seek, and you must find him hiding in the darned locations. Where is he now?

Comments:

I liked finding Waldo in the books, but I think this game is geared to the younger audience. The graphics are OK, and it can be a lot of fun.

HOME ALONE 2

THQ / 4 Meg

Kevin's been left alone again. Where? New York of course, and the Wet Bandits want a little revenge after last year.

Comments:

This action game is average. While the backgrounds are quite detailed, the music needs help. Fans of the blockbuster movie should like it.

JAMES BOND JR.

THQ / 4 Meg

The super secret boy agent has stumbled across an insidious plot to rule the Earth. Travel to exotic locations and explore.

Comments:

I like the idea behind this one, and it is similar to the cartoon. I wish it had the heart-pounding action of James Bond Sr., but overall it's a good rendition.

DECLARE WAR.

Super Conflict is war enough for anybody whether you're a video gamer, a board game fan, or a soldier. You call the shots for your ground, naval, and air forces in a Middle East theater of operations that can get very intense. **RACE DRIVIN'**
THQ / 4 Meg

Race on the weirdest courses around. You'll go in loop-to-loops, jumps, and maybe run over a few cows.

Comments:

Based on the arcade game, it looks almost identical to its counterpart, but the scaling isn't quite there. The instant replay is still the best feature.

**BLUES BROTHERS**
Titus / UKN Meg

Jake and Elwood Blues are back in action. Try to keep the cops from them, as they must escape to their next gig.

**Comments:**

This game encaptures the spirit of the movie. It even has the soundtrack. It plays very well, and is sure to please movie and action fans alike.

**REN & STIMPY**
THQ / UKN Meg

The obnoxious duo is here! Better have your nose goblins ready for this hysterical quest beyond description!

**Comments:**

This cart shows the potential to be as warped as the TV show. Hopefully, it will have good graphics and most importantly, smooth game control!

**SPACE MEGAFORCE**
Toho / 8 Meg

Pilot your ship into the depths of an alien world. Amazing power-ups will overwhelm the screen, but are they enough?

**Comments:**

This is one of the best shooters around. There are so many power-ups, along with huge levels. The music rocks in this amazing shooter.

**ROAD RIOT**
THQ / 4 Meg

It's off road racing like never before: you have guns, get the point? You have to get vicious if you want to win the races.

**Comments:**

First off, this cart is good for relieving stress. Running over spectators is a nice feature. The scaling is a bit rough, but you quickly get used to it.

**PRO QUARTERBACK**
Tradewest / 8 Meg

Slap on your spiked shoes and toss the pigskin around in Pro Quarterback! This sports title provides hours of action.

**Comments:**

A fun football game that uses a unique perspective to give it an all-new feel. Great sounds include all the yelling of the calls. You may be impressed!

**WAYNE'S WORLD**
THQ / 8 Meg

Garth has been sucked into the video game Zantar. Now Wayne must free him from the gelatinous cube's masses.

**Comments:**

The best part of this cart is the digitized voice and screens. The game itself is tough, and requires a lot of technique. Definitely a veteran player's game.

**SUPER BATTLETOADS IN BATTLE MANIACS**
Tradewest / 8 Meg

The Dark Queen is back, and Zits has been captured! Fight your way to his rescue with a variety of special moves.

**Comments:**

This game retains all the qualities that made the first so much fun. Tons of moves, and a surprising degree of graphics detail make this one a great sequel.

Vic Tokai / 8 Meg

Imperium puts you behind the controls of a robot armor suit. Attack the waves of enemies with lasers and missiles.

Vic Tokai / 8 Meg

The time for another world war has come. You must plot your strategy, and outsmart your enemy. This is our finest hour.

If you've yearned for a great flight and fight simulator for your Super NES, your prayers have just been answered! Enter Micropose's Super Strike Eagle!

Take part in assorted bombing runs and dogfights as you battle to rid the world of tyranny and evil. The breathtaking Mode 7 effects will blow your mind! When you need to rearm and refuel, you can attempt a carrier-based landing.

Super Strike Eagle's game scheme is simple enough; you take off from the deck of an aircraft carrier and participate in

After a few dogfights and bombing runs, you will want to go back to your aircraft carrier to refuel and reload. Be careful, if your landing isn't good enough, you will explode on the carrier deck!

The password option allows you to continue a game on your last level!

To better understand each mission, you will be briefed beforehand.

When you takeoff, make sure that you don't reduce your speed!

Missile lock is achieved when your circular heads-up indicator turns red.

MISSION AGENDA

Here's a summary of what you'll be facing as you fly into the enemy areas. After taking-off from your carrier, be prepared to enter a dogfight with enemy aircraft. Good luck (you'll need it)!

Aggressively attack the battleships to cripple their missile-firing capabilities.

While attacking ground targets, use your targeting sites (circled).

HOW TO LAND A MULTI-MILLION DOLLAR JET

This will prevent you from doing a "header" onto the carrier deck. Third, make sure your wheels hit the ground before or shortly after the large, horizontal yellow lines.

EVO

STORIES FROM FORTY-SIX MILLION YEARS AGO.

We all know the theory of evolution. Enix has taken that age-old idea and created a unique action game that puts you in charge of helping a little critter get through life's toughest adventures via adaptation and evolving!

You start out as a fish, and slowly work your way up the evolutionary scale. It's hard work, and you can't show any mercy upon the ecosystem. Food comes in varied forms. You can eat local plants and smaller animals. Or go for the big ones and

get some massive points! The game is based on how many Evo points you get during your journey. As you collect them, you can buy traits along the way and develop your speed and attack power. But don't forget, you can't have all the powers at once! Some will limit abilities: Heavy armor decreases speed.

Their are five types of animals to evolve into: a fish, a salamander, a large reptile, an avian (or bird), and other mammals! So put on your thinking cap and check this out!

5,000,000 TO 4,500,000 BG

Here is where you start out life as a cute innocent fish out to make it in the world. There are eight sections that you must conquer. They consist of volcanic sea beds and other predatory sea life. At the end of this section you will find a gigantic shark with a vicious appetite!

There are all sorts of different wildlife that thrive in the deep sea. They range from jellyfish to eels.

Now that you have just made your move to land, you can evolve into a full land living creature. There are other less developed life-forms lurking about, and a wasp colony will be a constant pest to all those who are not keeping their eyes peeled for an attack!

The enemies vary in this stage. They range from small insects like wasps to giant amphibians.

Now you are able to evolve into a giant reptile. You have two options here, either you can change into a four-legged creature that is somewhat slow, but strong... or you can be a bird-like bipedal creature that has tremendous speed, but has a very weak bite.

These beasts range from little frogs all the way up to big old brontosaurus and other dinosaurs!

THIS IS HOW IT IS...

Welcome to Seattle in the year 2050. The governments have collapsed, and the corporations have taken over. Not only that, but magic has returned with a vengeance. The oppressed Indian tribes have come to reclaim what has been taken from them. Beings from legend and lore have started appearing with dragons, krakens, and inspiring new terrors. Some seemingly human beings have shed their phony disguises, and have come forth as Elves, Dwarves, and Trolls.

Where do you fit in? Someone wants you dead - badly. After being gunned down, you awake in the city morgue, with little or no memory of your previous life. You are unarmed and around here that's a fatal mistake. If you are to survive the

Shadowrun is based on an extremely popular role-playing system, and remains almost totally faithful to its parent source. The game realistically depicts a gritty and dark vision of the future. It allows you to talk to people in conversations. The music rocks, and the attention to detail is phenomenal. Intense shooting action is even added in for good measure. HOW TO SURVIVE YOUR FIRST DAY IN SEATTLE...

You begin your journey inside the morgue (A.). Check your slab for information regarding who you should try to contact. When you get outside, a decker will warn you about hitmen. Follow him down an alley (B.). As soon as he's gunned down, pick up his gun, and blast your assailant. Take the hit man's jacket, and make your way to the back of the alley to find someone who can help. Travel to the business district (C.) and search the rooms. When you find the stiff, search his pockets.

After that, the Grim Reaper Tavern (F.) should be your next stop. Talk to the locals, and listen carefully to what they say. A ticket scalper has been geeked by the cops, and it would be worth your time to try to get his goods.

To do that, talk to a black market shadowrunner in the slums (G.), and buy an officer's badge. Impersonate an officer, and go back to the morgue (A.) and get the tickets and credstick. With that chore

done, try freeing the puppy from inside the park. That should please your spirit. Now it's off to the cemetery (H.). If you save someone, you may learn a little about magic. Finally, your last stop in this part of town is the exclusive nightclub The Cage (I.). You will find Mr. Glutman here. Glutman will take you somewhere safe. From now on, you're on your own.

ADVENTURE GALORE!

Enter Conrad, a special agent in training who has developed a new device known as the ultra-compact molecular density analyzer. (Wow!) However, these glasses allowed Conrad to notice that several humans were not what they seemed to be. These alien forces have now caught wind of Conrad's ability, and it's a race for your freedom and life!

Flashback has taken the animated adventure genre to new heights! It takes the ultra-smooth character animations (Prince of Persia) and puts them in a

challenging thinking-type action game (Out of This World) to create one of the best playing carts in a long time.

The characters are animated so smoothly that they seem lifelike. Backgrounds are graphically outstanding and appear almost real. The quest is unlike the typical adventure game as it requires constant thinking and decision making in order to solve problems that you encounter along the way. Throw in cinema intermissions and Flashback becomes an incredible gaming experience that breaks new ground in the areas of action and adventure!

THE MISSING LINK

The Humans is an interactive puzzle game centered around a group of primitive tribesmen trying to survive the terrors of everyday life in the Stone Age!

Take control of tribe members as they try to discover the spear, fire, the wheel and other items. Alternately control each human as you guide them up ladders, stack them upon each other, and fight ferocious dinosaurs.

Your tribe must also attempt to save fellow humans that have wandered from the village walls in fun-filled bonus games.

The Humans has a realistic side to human nature like decision making that could spell disaster with incorrect planning. Will the human race grow to today's standards, or will we be left holding the banana?

The Humans

Look at what your humans can learn!

CATAPULT

Bound across narrow caverns with the spear. Watch the power meter to judge distance.

THROW

Throw the spear to your buddies or hurt it at malicious dinosaurs to destroy them.

BURN

Use the torch to burn bushes in your way; just make sure buddies aren't around the fire!

ROLL

The wheel lets you roll along the turf at a faster speed. You can hop off at anytime.

JUMP

The wheel allows you to jump across small pits that you normally couldn't cross.

TOWER

Reach new heights when you pile up your humans!

KILL THE BEASTIES!

It's time for your humans to learn how to hunt. Two dinosaurs are roaming this jungle scene and each dino requires two spear hits to kill it! You only have three humans to use on-screen as well!

- 1) Climb the ladder to get the torch and spear. Toss the torch over the ledge and prepare to leap the gorge.
- 2) Once they are safely across, prepare your humans for a brisk run.
- 3) Use the torch to burn the bush and time the dinosaur so you can make a quick break for the ladder.
- 4) Another dinosaur awaits at the top so be careful not to get eaten.
- 5) Gather up the spears and hunt down the dinos to win this level!

DISCOVER THE WHEEL!

Discovering the wheel will be one of the greatest challenges your humans will face. They must use teamwork to reach their goal...the invention of the wheel!

- 1) Have the three humans at the bottom use the spear to get across, then leave one a bottom support to help the others on the ledge.
- 2) A dinosaur awaits, but you need only one spear to kill it.
- 3) Pass the spear to each human until you reach the fire.
- 4) Pass the fire down to burn the confining bush.
- 5) Have the humans climb upon each other and grab the wheel!

TIME BANDIT!

Take the most intense trip through time ever conceived with Time Gal! Time Gal is in hot pursuit of the notorious Time Bandit, and she must travel through 16 different time periods to catch up with him. Travel to the Prehistoric Era and battle dinosaurs. Skip to the present time and take part in Desert Storm! Then, race to the future, where your final battles take place in a bizarre period where aliens, robots, and ray guns run amok! No time is safe until the Time Bandit is stopped!

In Time Gal, you will follow the story and make decisions like move up, down, left, right, or fire your blaster. At rare instances, you must choose

between several choices of action after using the Time Medallion. Styled like Dragon's Lair, Time Gal will also throw a quick twist to the game by some times reversing the actions needed to advance. This randomness forces you to keep alert as you play through the game. After completing an area, you will get a password that will allow you to play back the scene you just finished, and see all of the death scenes

Bomberman, the bomb-toting favorite for the TurboGrafx system is back in his latest installment, Bomberman '93! This time Bomberman has several new worlds to blast his way through! The objective is simple: drop bombs to destroy boulders and enemies - but be careful! Your bombs can destroy you as well, if you stand too close! Also, when an item or exit appears, watch where you place your bomb. If your blast hits either of these items, more monsters will appear, and you cannot leave a level until all the monsters have been wiped out! You also have a time limit, so act fast! In addition, there is a five player game where you and four others blast each other to rack up big points. Bombs away!

SWORD OF HOPE 2

RPG AS YOU HOPED IT WOULD BE!

Five years have past since Theo sealed away the Dragon of Darkness. Since then the kingdom has flourished. Until one day a disturbing spectacle occurred at the sight of an ancient temple protected by the Collin clan! A giant red bolt shot into the sky from the old temple, beginning a prophecy that terrified the townspeople!

You are young Theo, prince of the kingdom. You must find out what has happened and make things right again! There are many small adventures within this grand quest. Take yourself and your companions to the limit and save your people from the evil forces that have once again awakened and started spreading darkness throughout the land!

This is the GameBoy at its finest. The graphics are not that spectacular, but as always they get the job done. The adventure is entertaining and really requires you to think out

the solution yourself. Therefore, you'll have to be on your toes!

You will have to kill some woodland creatures in the beginning while you make your way to the weapons shop. Once armed and

dangerous, you can head over to the temple, but be prepared for the worst. This game is not for the squeamish of heart; there's plenty of killing! So put on your thinking cap and grab your sword!

Stir Your Imagination With the Mind's Eye

Coupling state-of-the-art computer animation with New Age music, Miramar Productions may have evolved a new form of entertainment. The Mind's Eye videos have a truly mesmerizing effect on the viewer unlike any other medium.

The moment the tape begins playing, you are transported to another world.

A computer generated being welcomes you in a thundering alien voice, "You are now entering the world inside the essence of your imagination. Look within your dreams for they can take you beyond the mind's eye."

Both videos, The Mind's Eye and Beyond the Mind's Eye, are approximately 45 minutes of uninterrupted computer generated scenery accompanied by original music soundtracks. Each video is divided into a handful of segments that range from the realistic flight of a

bumble bee through a forest to the fan transformation of a robot into a race car and then into an airplane.

It's difficult, however, to describe the videos using words and still pictures. The pleasure comes from

Imagination breeds video reality in the computer animated world of The Mind's Eye.

watching the fluidity of the animation as the images metamorphosize from one fantastic form to another.

The success of the first video, Mind's Eye, which is a perennial best seller on Billboard's Video Sales Chart, has prompted Miramar to plan a number of sequels.

The Mind's Eye videos are unique additions to any audio/video library.

The Mind's Eye videos take viewers on a hypnotic journey through surreal worlds.

CARDS

Twenty-year-old rookie sensation Shaquille O'Neal is taking the NBA by storm like no one since Michael Jordan.

In his first six weeks as a pro, the 7-foot-1-inch, 300-pound Orlando Magic center is averaging more than 22 points and 15 rebounds.

The scary thing is, "Shaq" is still learning the nuances of the pro game. Just wait 'till he gets some more experience!

Shaquille for Real

Shaq's Classic rookie card is already a valuable commodity.

Interactive Movies

Sony and Loews Corporation have announced plans to build a number of small theaters where viewers press buttons on seat backs to shape the plot of a movie while they are watching it.

The format for this interactive entertainment will closely follow the method used in Sega's Night Trap.

Since every possible turn of events had to be scripted and shot, the cost for making these movies will be substantial.

Word is that Robocop writer Ed Newmyer will write and direct the next interactive movie entitled Ground Zero Texas.

Lifelike Pictures

Sega's arcade division has reached an agreement with General Electric to use GE's photo texture technology in the next generation of Sega arcade machines.

The technology will enable Sega to incorporate photo quality images of recognizable people or objects in upcoming games.

Imagine playing a racing game using this technology with a first person perspective. You look to the left at the driver who's neck and neck with you. But instead of some anonymous dope in a generic car, you see "The King" Richard Petty in his world famous STP car.

Silver Screen Stars of All Sizes and Shapes

Hollywood continues to do its job by offering something for everyone. But lately, a new group of heroes proves you don't have to have massive pecs and an Austrian accent to be a superhero. Reptiles and hedgehogs can be stars too.

EGM has confirmed that The Adventures of Sonic the Hedgehog - the cartoon - will indeed scurry its way across the television screen in 1993.

Created by Dicom, Sonic will be a 30-minute animated feature that follows a continuing story line.

Meanwhile, Disney's Aladdin is zooming along at a record-breaking pace. Aladdin, Princess Jasmine, Abu and that fantastic carpet recorded the highest gross ever for an animated film on a single day on Friday, November 27 with a total of \$7,473,611.

On the Western front, Kevin Costner will play leg-

endary lawman Wyatt Earp, a U.S. Marshal in Dodge City, Kansas who took part in a famous gunfight at the O.K. Corral. The film goes into production in 1993 with a sequel already planned.

Colombia gave audiences a glimpse of what should be one of the blockbusters in 1993: The Last Action Hero. In a trailer shown at the beginning of new Columbia theater releases, a black screen with voice-overs ends with a tense hostage situation. Suddenly Arnold Schwarzenegger appears walking away from the screen. He turns to the audience and says, "Not now.

Come back next summer. We'll be there Arnold, on June 18, 1993.

If Schwarzenegger can be a movie star, so can Dennis the Menace. At least that's the opinion of John Hughes,

who's directing the live-action film. Newcomer Mason Gamble stars as the title character. He's supported by a star-studded cast including Walter Matthau as Mr. Wilson, Paul Winfield as the police chief, Christopher Lloyd (Back to the Future) and Lea Thompson (Howard the Duck).

Also slated for a June '93 release, Arnold and Dennis will be duking it out at the box office.

Speaking of kids taking on grown-ups, Home Alone star McCauley Culkin is still in negotiations to star in a Richie Rich movie.

Since the comic series on which the movie will be based is about a little rich boy who has more money

than he knows what to do with, Mac wouldn't have to do much acting. It's the perfect role for the twelve-year-old multi-millionaire.

Meanwhile, an abandoned

WW2 aircraft hangar in Asto-

ria, Oregon was transformed into 17th century

Japan: the setting for Teenage Mutant Ninja Turtles 3. In the new film, the green-latex-

foam-good-guys travel in time back to feudal

Japan, where they must res-

cue the beautiful

reporter April O'Neil (once again played by Paige Turco).

In other reptile news, EGM has acquired what

may be some prototypical pic-

tures of the animated

dinosaurs in Jurassic Park.

Although companies refused to confirm, it's cer-

tainly within reason that the

specimens in Jurassic Park

will look very similar to the

computer generated images

in the photos above.

Finally, Warner Bros. is

negotiating with Steven Seag-

al to star in an action pic-

ture entitled "The Specialist."

Hollywood to Tap Marvel Pipeline

When 53-year-old Marvel Comics began selling stock to the public, management was adamant about pitching Marvel's rich stable of characters to Hollywood.

A year and a half later, a number of projects are under-way:

- A live-action Spider-man, written, directed, and produced by Terminator 2 creator James Cameron is rumored to have a \$60 million budget.
- Fox and Lorimar have

ordered a script for a live-action series featuring Daredevil.

• Universal is in negotiations with Marvel to do a live-action Incredible Hulk.

• Columbia Pictures is exploring the possibility of doing a live-action X-Men film.

Although EGM has not confirmed their authenticity, you may well be looking at early photos of next summer's blockbuster Jurassic Park.

Finally, Warner Bros. is negotiating with Steven Seagal to star in an action picture entitled "The Specialist."

CABLE TV

Humor From Beyond This World

Mystery Science Theater 3000 has become one of the hottest shows on cable television. After watching it only once, it's easy to see why.

You're flipping through the cable channels and as usual, there's not much to choose from.

While you're browsing, you notice an old black and white sci-fi flick playing on the Comedy Channel.

The movie is bad... really bad.

In fact, it's so bad you can easily notice the string that's holding up the rocket ship. The exhaust trail left by the ship is created by using nothing more than a 10-cent sparkler.

The next scene is two guys wrestling in rubber suits that are supposed to look like astronaut suits. As they struggle, you hear what appears to be a fashion show-style description of what they're wearing.

And then, as one of the spacemen is mercifully put out of his misery by tumbling down a cliff, a distraught voice says, "He didn't come out of his tuck in time."

Hey, "Who said that?" you wonder as you perk up and begin watching the

screen with some curiosity.

Upon closer inspection, you notice the silhouettes of three heads in the lower right hand corner of the screen who remind you of that guy who sits in front of the theater and constantly fires wisecracks.

The only difference is, these guys are not only funny, they make that hideous picture described above worth watching.

Those three heads belong to Tom Servo, Joel Robinson, and Crow - the darlings of MST 3K and three of the hippest, smartest and funniest creatures on cable television.

Joel is the only human. The other two are robots.

Joel was a mild mannered janitor for the Gizmonic Institute who was banished to an earth-orbiting space station as a pointless scientific experiment; they force him to watch the worst movies ever made.

To keep himself com-

pany, Joel made the two robots out of spare parts. Crow is the quick-witted of the two who pounces on every opportunity to rip the on-screen proceedings. Tom Servo is more reserved, dispensing cultured criticism in a rather thoughtful and controlled manner.

Joel's temperament falls somewhere between the two 'bots. Fittingly, Joel sits in the middle.

MST 3K writers estimate that more than 750 references, ranging from Shakespeare to Flintstone, are made during a single show. No one person will get every reference the threesome makes, but there's certainly something for everybody.

The concept seems so simple, and yet it is so original. Already in its fourth season, MST 3K's popularity is still growing. And since Hollywood will always have the uncanny capacity to churn out bad movies, MST 3K has a limitless future.

Dinosaurs For Hire: A Blast From the Past

What do you get when you mix a dinosaur with a large caliber machine gun and a vivid imagination?

In the world of comics, anything is possible, and Malibu Comics Dinosaurs For Hire embellishes that luxury.

Created and written by Tom Mason, Dinosaurs For Hire will appear in February in comics, and also in a video game! (But we'll get to that later.)

Mason has revived and revamped the original

three characters, which first appeared on comic book pages in 1987. Reese (the gun-crazy Stegosaurus with an eyepatch), Archie (the tough-talking, no-nonsense Tyrannosaurus) and Lorenzo (the Triceratops with a taste for the finer things in life) return in all their Jurassic glory. The trio is joined by Cyra-no, a cocky pink Pteranodon with a two-foot beak.

Trying to send the Dinos to early extinction are:

Poacher (the alien from outer space). Poacher has traveled from a distant planet to tackle the best earth has to offer (which is the Dinosaurs For Hire); Revenue (who works for a renegade branch of the IRS collecting taxes and is perhaps the Dinos' fiercest

enemy); and Dollar (Revenue's assistant). So you think the idea of a renegade tax collector trying to take down a gun-carrying band of Dinosaurs with an attitude is strange? Well, the story gets even stranger.

According to Mason, Dinosaurs For Hire evolved out of a comic book proposal called Elvis

"Dinosaurs For Hire is my revenge for everything that has happened to me personally at the hands of corporations, agents, lawyers, accountants - you name it."

- Tom Mason

The four main characters in Dinosaurs For Hire. Pictured above are: Reese (the Stegosaurus), Archie (the Tyrannosaurus), Lorenzo (the Triceratops), and Cyra-no (the Pteranodon).

Mason also hinted at some of the story line for the soon-to-be-released title. "There will be a veritable ton of surprise guest stars in nearly every issue," he said.

Issue #3 of Dinosaurs For Hire, for example, will

feature a cross-over with Malibu's own Ex-Mutants.

In addition to the new comic book series, Dinosaurs For Hire is being developed as a video game for the Sega Genesis. The release of the video game will coincide with the debut of the comic in February.

Also in development at 20th Century Fox is a possible Dinosaurs For Hire animated series, although no firm date has been set for its release.

Meet The Faces Behind Most Medical Advances.

There are a lot of doctors and researchers out there who deserve credit for society's medical achievements. But the fact is, they'll have to share the credit. Because before any medical project can break new ground, it has to get off the ground. And that takes money. We urge you to contribute to the hospital of your choice. Your help could mean a solution to many of today's most pressing medical concerns. The first of which is, quite frankly, funding.
